## How It Works

# LinkedBees Is A Business Network As Opposed To A Social Network.

At LinkedBees, registered members, individuals, and businesses have all the necessary tools to boost growth, find new leads and clients, and to promote their products and services. It's all about business: Buying and selling, product listings, directory listings, business contacts, industry groups, forums, your own business websites, and much more. Individuals also have a place here as entrepreneurs, freelancers, professionals, sole proprietors, or self employed persons seeking to increase their sales and their businesses in general.

## Why "LinkedBees"?

"Linked" symbolizes connection, contact, communication and all the main characteristics of a network. Bees are well known to be hard working, industrious, extremely productive, and community oriented. Thus "LinkedBees, The Business Business Network".

Why "business business"? It could be Real Estate Business, Restaurant Business, Retail Business, Financial Business or any other business. LinkedBees chose to be a Business Business.

## Bees symbolize much more:

*“Bees figure prominently in mythology and have been used by political theorists as a model for human society. Journalist B. Wilson states that the image of a community of honey bees ‘occurs from ancient to modern times, in Aristotle and Plato; in Virgil and Seneca; in Erasmus and Shakespeare; Tolstoy, as well as by social theorists Bernard Mandeville and Karl Marx.’*

*Despite the honey bee’s painful sting and the stereotype of insects as pests, bees are generally held in high regard. This is most likely due to their usefulness as pollinators and as producers of honey, their social nature, and their reputation for diligence.”*

## Very much like bees LinkedBees stands for:

- Hard work
- Diligence
- Perseverance
- Team Spirit
- Connection: Being a part of a whole.

## LinkedBees also believes in:

Free commerce, free enterprise, entrepreneurship and is pro-business in general.

## How It Works:

LinkedBees is a network of

### About

- [LinkedBees V-Card](#)

### Search Anything:

websites. The main site, the “Bee Hive”, is [www.linkedbees.com](http://www.linkedbees.com) and has all the business network community tools (members directory, all the activity lists, groups directory, forums directory, links directory, events, sharing, contacts, etc.).

There are other LinkedBees sites that are part of the network meaning that registered members are members of all the sites. These sites may be produced by Linkedbees or by the network members. Just by registering as an individual business person or as a business, you may have as many site as your business requires. All of these sites have the <http://linkedbees.com/examplesite> internet format address.

All LinkedBees members can do business at the network or off-network. This means that anybody can find a business contact at LinkedBees and transact directly outside of LinkedBees. This fits Linkedbees Mission which is “to foster global business growth in any of its forms”.

## Tools and Services:

The majority of LinkedBees services are free and some are paid. Services include:

**ACTIVITY PAGE:** All network members activity, member contacts activity, or single member activity.

**MEMBER DIRECTORY:** All members directory. Here registered members can initiate contact with each other (very much like friends on Facebook) or they can follow and be followed (like

Twitter).

**BUSINESS GROUPS:** All members can create business groups that are equipped with their own blog, forum, messaging system, online chat system, any kind of document storage, built-in word document creation and storage, group rating, emailing system, announcement system, group wiki, and many other network features. Groups can be public, private, or closed to a certain group of members. Any member can create a group and the groups can cover any business topic the member wishes e.g. by region, industry, product, function, type, business theme, politics as related to business, or any other.

**WRITE BUSINESS ARTICLES ANYWHERE ON LINKEDBEES:** Normal blogs have their authors and registered members can only comment on the author's articles. At LinkedBees ALL registered members are AUTHORS. This means that members can write business articles on the main site and on any network site. On other member sites it is the decision of the site creator whether or not to allow other authors and comments.

**FORUMS:** All business forum functionality. All members are permitted to write, comment, and discuss in the business forums.

**SITES:** All members can create as many free sites as their business requires. There are three kinds of themes: Online Business Cards (also known as V-Cards), online Resumes, and Business Blogs. In the near future premium e-commerce and business themes will be available for a low fee.

**LINKS:** All members can publish business links to share with all business network members.

**EVENTS:** Members can organize and promote business events like presentations, seminars, or any other kind of business event with our "Events Tool".

**BUYERS DIRECT:** A special site for listing products. When buyers click on the BUY NOW button they are taken to the member's independent website to close the purchase. All members can

display their products at LinkedBees Buyers Direct and send clients to their own websites.

**LINKEDBEES CLASSIFIEDS:** The public can browse the classifieds and contact registered members who are selling products. Registered members can buy and sell products on Linkedbees Classifieds listings.

**LINKEDBEES AUCTIONS:** The public can browse all auctions. Registered members can bid on or sell products at LinkedBees Auctions. Visitors who want to bid may register and place their bids.

**PROJECT BIDS:** Registered members can describe a project required for their business and optionally set a budget. Potential suppliers can bid for the job during the bidding term by describing their offer and pricing it. At the end of the term, the project owner chooses the supplier with whom he wants to work. This service is most effective for professional, technology, and freelance projects and jobs.

**BEE REVIEWS:** All LinkedBees' members can write reviews on any business, product, service or topic they wish. Visitors can browse the reviews. Writing reviews enhances internet reputation.

**HONEY PAGES BUSINESS DIRECTORY:** Just like the yellow pages, Honey Pages is a Business directory, but much more comprehensive than your average Yellow Pages. It is totally free (Yellow Pages charges for enhanced services), and there are many more fields and information spaces where members can describe and point visitors to their businesses and websites.

**BEE MATCH:** A strictly confidential service to match members who have business proposals with members interested in business proposals.

**UNLIMITED ONLINE V-CARDS:** Members can create V-Cards which are one page Online Business Cards. See LinkedBees V-Card [here >>>](#)

**UNLIMITED ONLINE BUSINESS BLOGS:** Members can create as many Business Blogs as

needed either through a Business Group or directly. See “The Main Hive” Group Blog [here >>>](#)

**UNLIMITED ONLINE RESUMES:** The same concept as V-Cards and Business Blogs, but with Resumes. See LinkedBees Founder’s online resume [here >>>](#)

**BUSINESS CONSULTING (paid service):** Organize And Grow LLC is an online Business Advisory Firm and is the network consultant of the LinkedBees Business Business Network.

**MANY MORE SERVICES TO COME SOON:** Buy and sell services in different styles, different listing services, more networking and sharing functionality, and additional premium themes to create a greater variety of member business sites.

**LinkedBees wishes you Business Success!**
