## The Goods

Kult is not a poster shop. We specialize in high-quality original art and collectible limited-editions from the major animation studios such as Disney, Warner Bros, Lucasfilm, Marvel, DC Comics and 20th Century Fox among others. All limited editions are hand-numbered and most are signed by the artist. Our curators hand-select only the coolest art for our collection. If we wouldn't hang it on our walls, we won't offer it to our clients. All artwork is available either unframed or framed by our team of expert artisan framers using only museum-grade materials.

## The Benefits

Kult is the only online gallery that currently offers a 10% rewards program to its customers. We appreciate your business and want to help you out in building your collection. What better way to help you than giving you cash back? We give all our customers 10% back in Kult Kash on every purchase to use toward future purchases. In addition, we are constantly running special deals, discounts and giveaways for our members. Membership is free and we put \$25 in your account just for joining. Shipping is free of charge on all domestic orders.
