

Meritus Business Solutions, Inc. **Information Management Experts**

A Revolutionary Approach to CRM Implementation and Custom Development

Meritus Business Solutions, are experts applying technology to provide unique solutions that address complex business needs. We deliver the right technology in just the right amount to deliver high value business solutions.

Meritus Business Solutions is a premiere professional services company focusing on Sage SalesLogix CRM Implementation and Custom Application Development. Meritus provides an entire range of CRM implementation and application development services and is a certified business partner for Sage SalesLogix CRM, serving New York/New Jersey and the Northeastern United States.

From enterprise-wide initiatives to niche market products, Meritus custom application development services can provide you with a solution that helps you overcome your greatest business and IT challenges. Meritus uniquely enables high-value workflows and business processes previously considered unachievable or impractical.

It's practical approach to business intelligence transforms data into actionable information through innovative collection, organization, storage, processing, and information retrieval technologies.

Our Areas of Technology Expertise:

CRM Platforms: Sage SalesLogix

Languages Microsoft .NET (ASP.NET, VB.NET, C#), C++, C, Java, XML/XSL, TSQL, PL/SQL, JSP, HTML, XHTML, JavaScript

Server and Database Technologies: IIS, Oracle, SQL Server 2005/2008, MySQL and associated enabling applications

All companies have or need a CRM system. Meritus feels Sage SalesLogix is the best CRM product on the market from any standpoint including functionality, ease-of-use, extensibility and price performance. **Contact us today to learn more about our technical solutions.**
