AZEK® Bench Hardware Kit

A bench with integrated flower/planter boxes brings the deck to life. Easy to build bench hardware kit utilizes AZEK® Deck boards to construct a bench with two integrated flower/planter boxes. Choose the color for the AZEK® Bench to match or complement an AZEK® Deck or AZEK® Porch.

Size

- 10' 7" long x 2' 7" wide x 2' 3" high (maximum dimensions)

Final assembled bench shown with AZEK® Morado™

Product Details

- Allows consumers to customize and accessorize a new or existing deck
- Bench Kit includes all hardware required except the AZEK® Deck boards
- Kit eliminates the hassle of creating unique layouts, measurements, and cutting
- No visible fasteners
- Very strong/stable – can hold up to 750 lb suspended weight
- Pro Dealer friendly packaging

AZEK® In-Deck Storage

Lose the unattractive deck storage boxes and reclaim the deck space to expand the outdoor living area. This highly functional, attractive and concealed storage solution presents a uniquely creative and integrated use of space on an AZEK® Deck. Use this clever storage system to hide anything from deck umbrellas to lounge cushions.

Use this clever storage system to hide anything from deck umbrellas to lounge cushions.

Product Details

- Easy to build kit contains everything necessary for in-deck storage system – brackets, storage box, etc.
- Specially engineered frame supports 500 lbs across lid surface
- Designed to prevent water infiltration
- Removable plug allows for easy tub clean-up
- Pro Dealer friendly packaging

Sizes

- 6' long x 26" wide x 22" deep (17.5 cu. ft)

AZEK® Gate Hardware Kit

Building a working, lockable, great looking gate onsite is now easy. Answering the market demand for an easy to build gate that offers strength and high style, the AZEK® Gate Kit offers an affordable solution that can be built on-site yet resembles a custom application.

Product Details

- Works with 6' or 8' section of AZEK® Rail
- Self closing/self latching and lockable system
- Unique hinge system allows for leveling and alignment with existing railing
- Strong, safe and secure without cross bracing

Sizes

- 36" height & 42" height

So sturdy that it requires no cross members for strength, the AZEK® Gate Hardware Kit gives an upscale look that looks custom and uncluttered.

AZEK® 5x5 Post Sleeve

Re-engineered to offer a better fit and finish over a traditional 4" post, the new AZEK® Post Sleeve has been enlarged to match architectural aesthetic trends. The enhanced 5" x 5" post sleeve works with all AZEK® Rail brackets.

Sizes - 39", 45" (white only) & 54"

Check with your local Parksites representative for information on improvements to the rail installation process.

The #1 Brand of Stain Resistant Decking

Refining and redefining what decking means, AZEK® Deck has been engineered to withstand the everyday things that happen on a deck. Even spilled wine, fruit punch, and hamburger grease are no match for AZEK® Deck's stain resistance. And, since AZEK® Deck is scratch resistant, you won't have to worry about marks from patio furniture or pets.

With AZEK® Deck, you can rest assured your deck will continue to look great for years to come.

As the leading manufacturer of cellular pvc decking with a production history, established distribution, and on-hand inventory, AZEK® Deck can meet your decking needs immediately - in thirteen different colors and several different sizes.

- Impervious to moisture and insects
- Stain and scratch resistant
- Mold and mildew resistant
- Fasten close to the edge without splits
- Installs easily with traditional tools and fasteners
- Made with Proprietary Procell™ Technology
Minimizes contraction and expansion
- Available in Thirteen Colors:

Strength and good looks are just the beginning.

AZEK® Rail offers the beauty and feel of real wood coupled with the high durability and low maintenance you expect from AZEK® products. With three versatile styles and popular color selections, it is now easier than ever to find the perfect railing system to complement your deck or porch project.

- AZEK® Premier Rail is a classic Victorian style railing
- AZEK® Trademark Rail is a versatile Colonial style that works well with any housing style
- AZEK® Reserve Rail is a generously sized railing offering a luxurious look and feel

Make a lasting good impression.

Better than wood or composite, AZEK® Porch provides a durable, long lasting solution for porch flooring that looks great and stays looking great. AZEK® Porch is made with the same proven technology as AZEK® Deck to provide a low-maintenance porch surface that resists stains, moisture, mold/mildew, scuffs, and scratches.

For greater design flexibility, and unlike wood or composite porch materials, AZEK® Porch can be used in covered or uncovered areas.

Available in Brownstone and Slate Gray, AZEK® Porch is a tongue and groove 1 x 4 plank that cuts and installs easily with traditional tools.

- Low maintenance
- Stain and scratch resistant
- Perfect for covered or uncovered applications
- Limited lifetime warranty

INSTALLATION

To ensure maximum benefit from its unique features, it is important that the following instructions are followed for best results.

Upon Receipt

Store in a clean and dry place prior to finishing and installation.

Finish decking on all four sides and both ends with penetrating oil based sealer prior to installation. Finishes with fungicides, mildewcides and UV inhibitors will keep your deck looking its best longer.

Recommendations

To allow for modest expansion of the boards when wet, we strongly recommend leaving a 1/4" space between each piece when laid side by side. Lengthwise shrinking is minimal, so butt ends neatly and tightly.

Our recommended joist spacing spans are 16" for 4/4 material and up to 24" for 5/4 material.

We recommend the use of high quality non-corrosive screws or nails to fasten your deck boards to the joist substructure. Galvanized nails and stainless steel screws seem to work best. We do not recommend the use of under deck fastening systems or deck clip fastening systems.

Fasteners & Ventilation

Pre-drill pilot holes 3/4" from the ends of the boards to minimize splitting and ensure the fastener penetrates at least 1-1/2" into the joist preferably at a slight angle for best results. On 6" material we recommend three fasteners per joist while 4" needs only two.

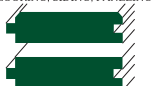

Proper ventilation is essential to allow your decking boards to breathe. Please ensure your deck is raised off the ground 18" or more to achieve year round air flow.

Step into the natural beauty of...

Scenic™ Mahogany has a unique, long lasting beauty that is easy to maintain. Sourced from countries that are leaders in ecological, sustained forestry practices, Scenic™ creates a strong deck, promising no uneven wear or splitting. Because of this durability and the unmatched beauty, Scenic™ is the perfect complement to your beautiful home in a variety of applications.

Ipé Decking

by Parksite

To Stain or Not to Stain

Ipé can be left in the raw and over time will weather to a silver/gray color. On the other hand, to help preserve the beauty and color of Ipé, a UV resistant stain or penetrating oil finish can be applied. Before applying any type of coating, brush the surface to remove any dust or dirt.

Fasteners and Fastening Systems

Stainless steel screws or stainless steel pneumatic nails are recommended. Because of the high density of Ipé, pre-drilling will be required before installing the screws. Some fastening systems now offer the benefit of hidden screws thus giving your project a nice finished look. There are a number of hardware and fastening system suppliers that can recommend the best product for your requirements.

Spacing

When installing the decking boards, a 1/16" spacing between boards is generally recommended. This will allow for proper air circulation between boards but also minimizes gap width after the natural seasoning of the lumber takes place.

Tools

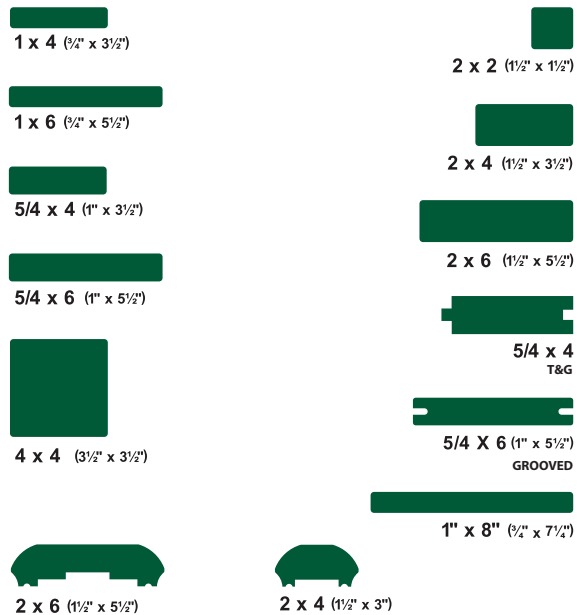

Ipé can be worked with conventional carbide tipped saw blades and drill bits. The tool life of high-speed steel will be greatly shortened when cutting or drilling Ipé.

About the Species

The wood is procured from Brazil and is machined there as well. It is one of the hardest and most dense species known. With a weight of approximately 6 lbs per board foot (net), it offers superior durability and rot/decay resistance that even pressure treated products cannot surpass. Naturally medium dark brown in color, Ipé has a smooth texture that is less likely to splinter and peel up like some other woods, thus reducing splinters and unsightly raised grain seen commonly on weathered decks after a few years.

More Millwork Items from INTEX[®]

Pergola System

INTEX[®] provides pre-sized cut to length parts for a complete Pergola System. Whether it is attached to your home, to add an elegant twist to your deck or patio, or free standing to create a relaxing outdoor kitchen. Pool side applications add a hint of shade, while creating a unique summer experience.

Siding Accessories

INTEX[®] has a full line of siding accessories including Casings, Outside Corners, Inside Corners, Watertable, Self Flashing Drip Cap, Rake Moulding and Band Boards.

Window and Door Surrounds

INTEX[®] window and door surrounds are available in standard sizes to match windows from today's most popular manufacturer's, including Anderson[®] and others. Our surrounds can be ordered fully assembled or as a kit for assembly on the job site.

Soffit System

The INTEX[®] Soffit System drastically reduces labor time and improves job site efficiency. Price per square foot is comparable to traditional edge and center bead. The INTEX[®] Soffit System includes all required materials for vented and non vented soffit.

Post Wraps

With INTEX[®] post wraps, it's easy to turn ordinary posts into beautiful design elements. Hide a wood post or metal column. Create a perfect match to original square craftsman-type porch columns.

Custom Brackets, Panels & more...

Traditionally renovating a historic home used to be challenging due to custom woodworking which would rot with time. Now INTEX[®] has a solution with custom PVC millwork. Brackets, panels, trellis, porch heads or anything that can be imagined can be created to exact specifications.

DecKorators™

Inspiration for Outdoor Living™

16.4' Wire Extension

It's easier than ever to design a custom deck using Maine Ornamental's eye-catching array of innovative deck accessories.

The post caps are designed to fit nominal post sizes and will beautify your outdoor project for years to come.

Wood Post Caps

Includes two sets of wood post caps: Newport and Hatteras. Protect your posts from nature's elements while adding a personalized look to your outdoor design. The classic lines of these outdoor accessories provide lasting beauty that will beautifully complement any porch, deck, railing or fence design.

Primed Wood Post Caps

DecKorators® post caps by Maine Ornamental® has added yet another product to its selection of outdoor accessories: primed wood post caps. These caps top your post with the clean simplicity of white.

Metal Post Caps

Several colors and finish selections make these post caps and post points the quality choice on the market today. Offered in six distinctive styles: Victoria High Point, Victoria Plateau, Victoria Ball, Post Points, and to light up your deck day and night, Solar Metal and Designer Solar Metal Post Cap Lights.

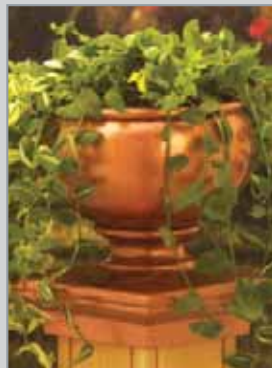

Glass Post Caps

Offered in Jewel and Tiffany-style glass. Jewel post caps are available in vibrant shades of emerald, sapphire and garnet, adding that extra touch of style. Tiffany-style post caps are offered in four distinctive styles: California Grape, Sunflower, Mission and Seagrass Serpentine Jade. Lighten up your outdoor space day and night with the Solar glass post caps —also available in three Tiffany-styles. Handcrafted with exacting standards and excellence.

Decorative Planter Post Caps

Planter post caps, made of cast stone, are the perfect way to bring the charm of a garden to any deck or fence project. These unique planter caps feature a drain hole to keep plants thriving longer.

Post Cap Finials

Post top finials are designed to screw onto post tops. The pineapple finial comes with an attached lag screw and is designed for a 4 x 4 post.

Tiger Claw[®] Hidden Deck Fasteners

Finally a Better Way to Build a Deck!

Tiger Claw[®] is a stainless steel fastener with black oxide coating with stainless steel screws.

Tiger Claw's hardened, heavy gauge steel fasteners create a smooth, "nail free" surface, that preserves the beauty the decking material. With outstanding hold-down power, our fasteners reduce splitting, splintering, cupping and rotting caused by nails and screws. Leaving you with a long-lasting, beautiful deck, that helps save on time, excessive labor costs and deck maintenance.

- Fastener available for all types of decking
- Saves installation time
- Reduces splitting, cupping and rotting
- Install from top side
- Preserves beauty of decking
- Requires no special tools
- Cost effective - one of the least expensive hidden deck fasteners

Fasteners

 TC-1* for Pressure -treated, Cedar & Redwood	 TC-4 * for Stainless Steel Hidden Deck Fastener
 TC-2* for Pressure -treated, Cedar & Redwood	 TC-G for Grooved Decking
 TC-3* for Composite or Medium Density Hardwoods	 PROCLIP* for Cellular PVC Decking

Tiger Claw[®] Installation Gun

The installation gun will dramatically increase installation speed and productivity. One person can install a 16 foot board in less than 90 seconds, resulting in all around faster deck installation.

Remember Parksite for other Quality Fasteners

NOTE: When using a Headcote® fastener on hardwoods it is recommended to pre-drill with Smart-Bit™.

SUGGESTION: Contractors installing Tiger Claw® TCG on a regular basis should consider purchasing the Tiger Claw® Installation Gun. Users of the TC4S & TC3S should consider using the Tiger Jaw installation tool.

If you see "Coming Soon" for any particular match - Call (866) 751-4779 - Parksite will investigate.

*** Call for availability on #316 Stainless Steel Headcote®. *** Trex Accents Only.*

**** Parksite also inventories FastenMaster® GuardDog® Exterior Wood Screws for decking.*

Wood Products		Headcote®		Tiger Claw®	
Species:	Color*	Non-Grooved	Grooved		
Ipé	Brown	TC4S	TCG		
Mahogany	Brown	TC3S	TCG		
Jatoba	Brown	Call Parksite	TCG		
Marbau	Brown	Call Parksite	TCG		
Meranti	Cedar	TC3S	TCG		
Treated Pine***	Tan-Gray	TC2S	N/A		
Cedar	Cedar	TC2S	N/A		

Parksite stocks these colors but be aware that, currently, the package is labeled with the AZEK® Deck logo. One Headcote® color matches multiple decking brand colors. DeckFast® and TrapEase® II are NOT packaged brand specifically and would be best choice for composites, unless stainless steel is specified in manufacturers guidelines.
