DuPont™ Weatherization Systems

DuPont™ Tyvek® HomeWrap®

DuPont Weatherization Systems aren't just backed by a warranty for Builders, General Contractors, and Professional Installers. They're backed by a company that for over 200 years has been dedicated to providing sustainable solutions for a better, safer and healthier life for people everywhere.

Since everyone's needs are not the same, DuPont offers both a 10-Year Product Warranty as well as a 10-Year Product and Labor Warranty. This provides your customers the added assurance that the structures you build will help protect their valuable investment for years to come.

Whatever the job, our Specialists are industry-experts focused on solving any construction-related problem or need you may have.

DUPONT
WEATHERIZATION
PRODUCTS
10-YEAR
LIMITED
WARRANTY

Roll Sizes:

- 3'x100'
- 3'x165'
- 5'x200'
- 9'x100'
- 9'x150'
- 10'x100'
- 10'x150'

DuPont™ Tyvek® DrainWrap™

DuPont™ Tyvek® DrainWrap™ was engineered to meet the drainage needs of specific façades. It is recommended for use behind primed wood and fiber cement siding when maximum drainage is desired. DrainWrap™ is also an ideal solution when foam board is applied over flat substrates.

Roll Sizes:

- 9'x125'
- 10'x125'

DuPont™ Tyvek® StuccoWrap™

With a specially engineered surface texture designed for traditional and synthetic stucco systems in both commercial and residential construction, Tyvek® StuccoWrap™ helps reduce susceptibility to cracking, improves stucco curing and channels moisture out of the wall.

Roll Size:

- 5'x200'

DuPont™ Tyvek® Tape

Roll Sizes:

- 2" x 55 Yards
- 3" x 55 Yards

The crucial, final step for maximum reduction of air infiltration through wall systems is to help create a seamless, protective envelope sealed with Tyvek® Tape.

DuPont™ Tyvek® Weatherization Systems offers a 10-Year Limited Warranty, giving you the assurance that DuPont will stand behind its products. For more information contact 1-800-44-TYVEK

The miracles of science™

www.Construction.Tyvek.com

DuPont™ Weatherization Systems

DuPont™ Flashing Systems

The miracles of science™

The range of DuPont flashing products are durable, tough, tear-resistant and deliver superior protection from water damage and perform through extreme temperatures (they can even handle prolonged exposure to UV light).

DuPont™ FlexWrap™, DuPont™ StraightFlash™, DuPont™ Flashing Tape and DuPont™ Thru-Wall Flashing feature quick-release backing allowing for easy installation. And, the forgiving initial tack enables easy repositioning.

Your project can qualify for a 10-year limited product and labor warranty when you use a DuPont™ Tyvek® Weather Barrier, flashing products and tape.

DuPont™ FlexWrap™ NF

DuPont™ FlexWrap™ NF (No Fasteners) is a premium performance, extendable self-adhered flashing material that can be applied over a wide range of building substrates.

Sizes: 6"x75' & 9"x75'

DuPont™ Flashing Tape

DuPont™ Flashing Tape provides a cost-effective way to help protect the jambs and heads of today's residential windows from water intrusion.

Sizes: 4"x100', 6"x100' & 9"x100'

DuPont™ StraightFlash™

This durable flashing material is designed to protect the heads and jambs of rectangular windows. These areas can be subjected to wind-driven rain, which can find its way into the window opening and cause water damage.

Sizes: 4"x150' & 9"x125'

DuPont™ StraightFlash™ VF

DuPont™ StraightFlash™ VF (Versatile Flange) is dual-sided, self-adhered flashing made with DuPont™ Tyvek® and premium butyl sealant.

Size: 6"x125'

www.Construction.Tyvek.com

DuPont™ Weatherization Sealant

Seal in Comfort

- Up to 40% of a home's energy loss is due to air infiltration - exterior air penetrating cracks and crevices.
- Weatherization Sealant is specially formulated to help protect vulnerable wall crevices from the elements.
- Helps increase energy efficiency and comfort in your home.

Roofing

DuPont™ RoofLiner

DuPont™ RoofLiner premium roof underlayment provides excellent protection against leaks under all types of roof coverings.

With 10 squares in every roll, DuPont™ RoofLiner allows for maximum roof coverage and efficient installation—making it easier to install than roofing felt. As a result, there are fewer overlaps, seams and fasteners, which helps reduce both labor and waste.

In addition to improved water hold-out and better resistance to mold growth, DuPont™ RoofLiner also offers superior tear and UV-resistance when compared to typical roofing felt.

- Made with DuPont™ Elvaloy® copolymer
- Ideal for sloped ($\geq 2:12$) commercial and residential roofs, new construction and re-roofing applications
- Class “A” fire rating per ASTM E108 New
- High UV-resistance with up to 6-months UV exposure per ASTM G154
- Superior tear resistance compared to roofing felt for increased durability
- Lightweight for easy handling and installation
- Better coverage-1 roll replaces about 5 rolls of 30-lb felt
- More resistant to mold growth than roofing felt
- 30-year limited product replacement warranty for builders, general contractors and professional installers.

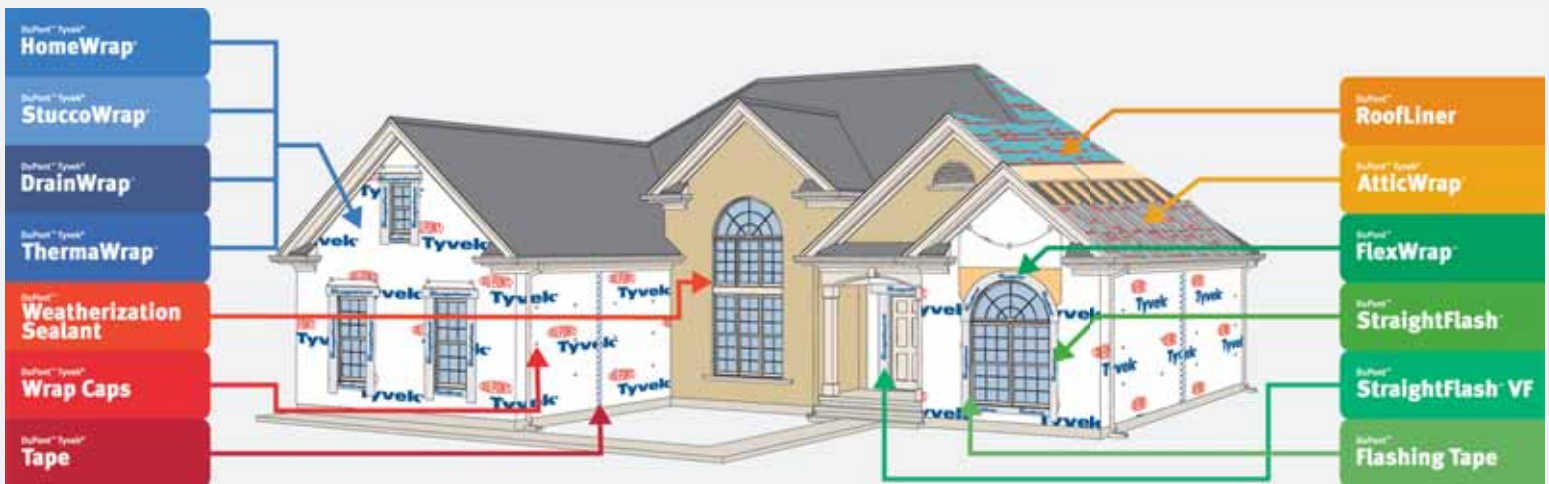

One roll of DuPont™ RoofLiner replaces 5 rolls of 30-lb felt

The miracles of science™

www.Construction.Tyvek.com

All the right products. In all the right places.

The combination of these products provide builders the opportunity to have a 10 Year Limited Warranty on their next home or commercial project. It also simplifies the weatherization package by using one brand of products made to work together and manufactured by a trusted company: **DuPont**.

Cellular PVC Trim and Moulding

The #1 Brand of Trim

AZEK® Trim with the AZEK® Edge has precise sealed edges on all 4 sides.

AZEK® Trim products, available in trim, sheets, cornerboards, and beadboard, offer many reasons to choose AZEK® Trim for your next project. Using traditional tools and fasteners, AZEK® Trim products can be worked just like wood - even mitered, routed, and turned on a lathe. For custom applications, AZEK® Trim products can be laminated and even heat formed to create curves.

- Impervious to moisture and insects
- Perfect for ground contact application
- 25 year warranty
- Tightest board tolerance in the industry
- Easier to clean
- Maintains a "like new" appearance in all types of weather
- Does not require paint for protection
- Building Code listing ESR-1074

AZEK® Trim Products:

AZEK® Beadboard

AZEK® Trimboards
(smooth or textured)

AZEK® Cornerboards
(smooth or textured)

AZEK® Sheets

The Perfect Compliment to AZEK® Trim

AZEK® Mouldings have the same look and feel of AZEK® Trim. They won't rot, crack or split and are impervious to moisture and insects. AZEK® Mouldings feature the same crisp detail found in wood mouldings with the longevity and durability that AZEK® products are known for.

- No painting required, yet easy to paint if a custom color is desired
- UV protection inside and out
- One warranty covers all products

- Crown Profiles
- Casing Profiles
- Shingle Band Profiles
- Drip Cap Profiles
- Cove Profiles
- Sill Profiles

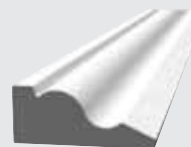

www.azek.com

Introducing three innovative profiles in 2011 to bring the total of AZEK® Moulding options to 21 distinct products.

AZEK® Water Table

- One piece drip cap with integrated starter strip/nailing flange
- Sized to be used in conjunction with any size or finish trimboard

AZEK® Band Moulding

- Designed to enhance the edges of a panel, door or window trim

AZEK® Garage Door Thermostop

- Moulding profile with built-in co-extruded flexible weather strip

AZEK® Finish Grade Trim

Two piece trim system designed to offer a smooth, fastener free trim surface. No more need to fill, paint and sand nail holes. Perfect for door and window surrounds, but could be used in nearly any trim application.

Product Details:

- Two piece trim system
 - Base trim which is face nailed for a secure installation
 - Cover trim which fits into base trim and includes a nailing flange.
- System allows installers to quickly face nail the base trim for a secure installation and then attach the cover trim in place to hide fasteners
- Design incorporates interior "pockets" to assist in water management
- Corner reinforcement piece available to stabilize miter joints and minimize expansion and contraction

Sizes:

- 6/4 x 6 in 18' lengths (approximate installed thickness and width)
- Traditional finish only

AZEK® Rabbeted Cornerboard

With rabbeted edges, the AZEK® Rabbeted Cornerboard is designed to ease siding installation and deliver a crisp, clean trim facade.

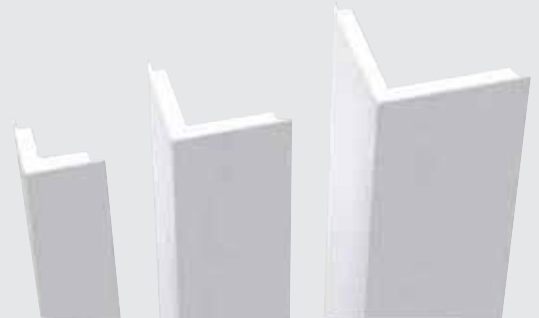

Product Details:

- One piece cornerboard with rabbeted edges
- Hides uneven siding edges and eliminates need for a J-Channel with Vinyl siding

Sizes:

- 5/4 thick
- Traditional in 4", 6" and 8" widths
- Frontier in 4" and 6" widths
- 10' and 20' lengths

Rabbeted Edge Corner

AZEK® Integrated Drip Edge

Trim product designed to be used for window and door surrounds. Integrated nailing flange and drip edge are intended to assist in water management efforts.

AZEK® Universal Skirt Board

Trim product designed to be used along the base of the house. Integrated nailing flange and drip edge are intended to assist in water management efforts.

*Challenging
the Perception
of Fiber Cement™*

Brick, stone, block, shake and smooth lap siding, all of these exterior façade options are timeless in their appeal. With Nichiha fiber cement panels, that appeal is brilliantly represented in over thirty textures and colors, along with shake and lap siding styles.

A truly unique element of the Nichiha fiber cement panel line is the clip installation system. The patented Nichiha clip system saves labor time and costs, as no special tools or specific labor are needed to complete installation.

- Multi-layered coating process creates a lasting finish
- Panels will not crack, rot or delaminate and are resistant to fungus and termite infestation
- Nichiha fiber cement panel products withstand extreme weather conditions

Packaged: 2 per pack (18 sq.ft.)

8-3/4" profile

Parksite is proud to distribute Apex Millwork

Apex Urethane Millwork® creates quality custom trims and mouldings using the latest innovations in technology to bring our products to your door faster than anyone else in the industry.

Whether you are restoring, remodeling, or creating a new space, we can make your vision become a reality. We work with homeowners, contractors, architects, and skilled professionals to help you create custom designs, or you can choose from our large selection of in-stock products.

Apex Urethane Millwork® products will NOT:

- Rot
- Absorb moisture
- Crack
- Decompose
- Warp
- Harm the ozone

Apex Urethane Millwork® products ARE:

- Made in the United States of America
- Crisper in appearance than plaster
- Detailed in elegance and beauty
- Made for both interior and exterior applications
- Vermin resistant
- Solvent resistant
- Moisture resistant
- Odor free
- Fungus resistant
- Impervious to insects
- Environmentally friendly
- Less costly than stone

Apex Urethane Millwork® products WILL:

- Hold paint longer than wood
- Save on installation costs and time
- Add beauty and value to "curb appeal"

Apex Urethane Millwork® produces all of their products in the USA. This allows for fast efficient service.

For a complete list of products please visit www.apexmillwork.net and view their online product catalog or contact Parksite for a hard copy.

Millwork Solutions

INTEX[®]
MILLWORK SOLUTIONS

Custom PVC Millwork

Traditional Craftmanship. Advanced Technology.

INTEX[®] specializes in custom-made PVC exterior and interior millwork designed to builder specifications, including profiles, one piece and built-up crown mouldings, window casings, raised and recessed panels, wainscot, post wraps and decorative trim.

If you can imagine it, INTEX[®] can create it.

INTEX[®] enables limitless interior millwork design options. From intricate details to innovative finishing touches, INTEX[®] PVC millwork is created using advanced CAD design technologies, state-of-the-art fabrication equipment and hand-crafted techniques once reserved only for wood.

INTEX[®] PVC millwork is...

- Not affected by moisture – won't rot, swell or split
- Bug proof
- Impervious to salt
- UV resistant
- Easy to nail, glue, route or cut
- Paintable

Rail System

The INTEX[®] Rail System makes a great addition to any porch, patio or deck. Made from 100% cellular PVC, it is virtually maintenance free, and its structural durability will provide for a lifetime of lasting beauty. Choose from an assortment of baluster styles or customize a design to meet your specific needs.

Pergola System

INTEX[®] provides pre-sized cut to length parts for a complete Pergola System. Whether it is attached to your home, to add an elegant twist to your deck or patio, or free standing to create a relaxing outdoor kitchen. Pool side applications add a hint of shade, while creating a unique summer experience.

Window and Door Surrounds

INTEX[®] window and door surrounds are available in standard sizes to match windows from today's most popular manufacturer's, including Anderson[®] and others. Our surrounds can be ordered fully assembled or as a kit for assembly on the job site.

Post Wraps

With INTEX[®] post wraps, it's easy to turn ordinary posts into beautiful design elements. Hide a wood post or metal column. Create a perfect match to original square craftsman-type porch columns.

Siding Accessories

INTEX[®] has a full line of siding accessories including Casings, Outside Corners, Inside Corners, Watertable, Self Flashing Drip Cap, Rake Moulding and Band Boards.

Soffit System

The INTEX[®] Soffit System drastically reduces labor time and improves job site efficiency. Price per square foot is comparable to traditional edge and center bead. The INTEX[®] Soffit System includes all required materials for vented and non vented soffit.

Custom Brackets, Panels & more...

Traditionally renovating a historic home used to be challenging due to custom woodworking which would rot with time. Now INTEX[®] has a solution with custom PVC millwork. Brackets, panels, trellis, porch heads or anything that can be imagined can be created to exact specifications.

Columns and Egress

Crown Column offers an infinite selection of styles and sizes

Crown Column & Millwork manufactures architectural columns, various styles of fiberglass round and square columns, softwood and hardwood columns, mantle columns, decorative capitals, composite and wood porch posts, softwood stair parts and composite and vinyl rail systems.

We produce columns to meet your needs, regardless of the shape, size, design or species of wood that you require.

- Architectural columns
- Fiberglass round & square columns

- Softwood & hardwood columns
- Mantle columns

- Decorative capitols
- Composite & wood porch posts

Sound Control

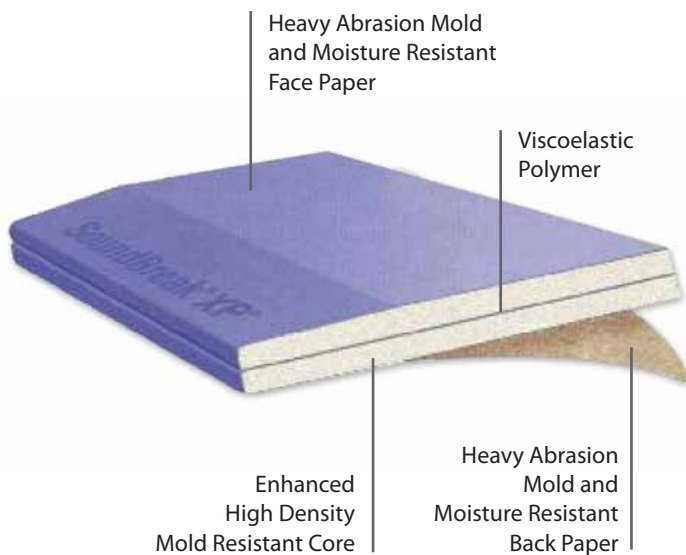

Market trends driving need for higher rated STC wall partitions

Gold Bond® BRAND SoundBreak® XP® Gypsum Board has an acoustically enhanced, high density gypsum core encased in a heavy, abrasion and mold/mildew/ moisture resistant, 100% recycled, purple paper on both sides. Used in the construction of high rated STC wall assemblies, SoundBreak XP consists of a layer of viscoelastic damping polymer sandwiched between two pieces of high density mold resistant gypsum board, providing constrained layer damping.

Features & Benefits:

- Superior sound damping
- Installs like traditional Gypsum Board
- Thinner, cost effective and more reliable than traditional methods
- Heavy abrasion, mold and moisture resistant paper
- Enhanced high density mold resistant core

Market trends driving need for higher rated STC wall partitions

- Increasing land costs have resulted in larger amounts of high density multi-family housing
- The result of high density housing is individual living units positioned closer together than traditional single-family housing.
- Home theatre systems are becoming more prevalent in use and sophistication.
- More potential noise being transmitted between wall partitions.
- Commercial buildings such as schools, hospitals and hotels also have an increasing need to control sound between areas of a building.

All of these changing market dynamics have resulted in an increased need for higher rated Sound Transmission Class (STC) wall partitions, which reduce the transmission of airborne sound between living spaces within buildings.

SoundBreak® XP® Gypsum Board is GREENGUARD Children & Schools SM Certified for indoor air quality.

Roofing

INSPIRE™ ROOFING PRODUCTS

InSpire™ is the next generation of premium roofing products. It's a perfect combination of the natural beauty found in slate along with the most technologically advanced methods and materials. InSpire's beauty, strength, durability and colors open a new world of innovation.

Available in 25 colors
(7 standard, 11 premium and 7 blends)

www.inspireroofing.com
Not available in all markets

Endurance

InSpire™ Roofing stands up to the toughest weather and harshest conditions. Backed by a 50-year transferable limited warranty.

Integrity

Using technologically advanced methods and eco-friendly materials, InSpire™ roofing is a breeze to maintain.

Beauty

The architectural elegance of this slate-like product comes from the patented molding process that creates varied edges and surfaces for a natural effect.

Installation

No bending or blending on the job site, allowing greater productivity.

Aerix™ is a roof ventilation system that provides a cost-effective solution to a very common construction problem related to roof insulation and ventilation.

The Aerix Roof Ventilation System provides an insulation baffle and a vented channel that protects the insulation and greatly reduces ice dams, creates proper air flow and ventilation, reduces energy costs and is simple to install.

www.bpeninnovations.com

Bringing a new standard in roof ventilation and moisture management

Key Features:

- Pre-formed panel — no cutting or folding required allows for a simple installation process
- Designed for all types of insulation.
- Adjusts to all roof slopes.
- Interlocking panels and quick fitting
- Manufactured from 100% recycled high density polyethylene (HDPE).

Eave Baffle Vent Panel

DryFlekt® Kick-Out Diverter Flashing Designed to eliminate water intrusion at Roof to Wall Intersections

Durable

Non-corrosive, non-conductive and recyclable material.

Meets or Exceeds Flashing Requirements

and is compatible with all leading roofing and wall cladding systems.

Versatile Design For All Roof Pitches

ensures best practice in preventing water intrusion at roof to wall intersections.

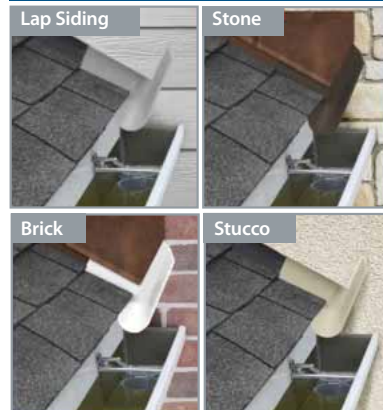

Flexible and Seamless Construction

withstands ice damming and wind driven rain. Easily trimmed to meet installation requirements. Eliminates bending material.

DryFlekt® should be installed in all locations where sloped rooves meet vertical walls.

Works Effectively with All Façades

DryFlekt® is manufactured in left and right parts, available in six aesthetically pleasing colors:

www.dryflekt.com

- Has the feel and mass of wood
- Can be painted or stained with oil or latex
- Can be cut, routed, drilled, nailed and sanded
- Not brittle and can be lifted and installed solo
- 100% chemical and preservative free
- Will not decay, rot, propagate mold, splinter, split or crack
- Installed with conventional wood working tools
- Long lasting, recyclable and thermally efficient

10 Years of continuous research and development yields a breakthrough in wood composite technology.

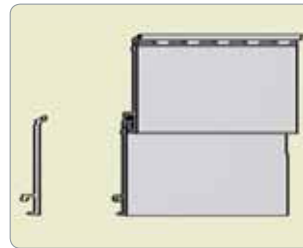

Benefits and Features:

- Low maintenance
- Patented technology
- Enhanced wood
- 50-year product warranty
- Moisture resistant
- Incredible value
- Strong and durable
- 35% lighter than fiber cement
- Recyclable

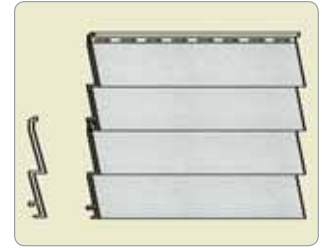

TechWood can be ordered pre-finished with paint or stain to achieve finish warranties.

2011

The revolutionary technology that is changing the way people think about decks.

Beautiful fit and finish. All components connect with an engineered fit. No tools required. SigmaDek™ includes everything from above the concrete footer, including stairs and railing systems.

Cellular PVC Deck

The #1 Brand of Stain Resistant Decking

Refining and redefining what decking means, AZEK® Deck has been engineered to withstand the everyday things that happen on a deck. Even spilled wine, fruit punch, and hamburger grease are no match for AZEK® Deck's stain resistance. And, since AZEK® Deck is scratch resistant, you won't have to worry about marks from patio furniture or pets.

With AZEK® Deck, you can rest assured your deck will continue to look great for years to come.

As the leading manufacturer of cellular pvc decking with a production history, established distribution, and on-hand inventory, AZEK® Deck can meet your decking needs immediately - in thirteen different colors and several different sizes.

- Impervious to moisture and insects
- Stain and scratch resistant
- Mold and mildew resistant
- Fasten close to the edge without splits
- Installs easily with traditional tools and fasteners
- Made with Proprietary Procell™ Technology
Minimizes contraction and expansion

Available in Thirteen Colors:

* Only offered in 20' lengths

Fastening Options:

Cortex™, ProClip® from Tiger Claw®, HEADCOTE®, HIDfast and TrimTop™
See pages 21 & 22

AZEK® Bench Hardware Kit

A bench with integrated flower/planter boxes brings the deck to life. Easy to build bench hardware kit utilizes AZEK® Deck boards to construct a bench with two integrated flower/planter boxes. Choose the color for the AZEK® Bench to match or complement an AZEK® Deck or AZEK® Porch.

Size

- 10' 7" long x 2' 7" wide x 2' 3" high (maximum dimensions)

Final assembled bench shown with AZEK® Morado™

Product Details

- Allows consumers to customize and accessorize a new or existing deck
- Bench Kit includes all hardware required except the AZEK® Deck boards
- Kit eliminates the hassle of creating unique layouts, measurements and cutting
- No visible fasteners
- Very strong/stable – can hold up to 750 lb suspended weight
- Pro Dealer friendly packaging

AZEK® In-Deck Storage

Lose the unattractive deck storage boxes and reclaim the deck space to expand the outdoor living area. This highly functional, attractive and concealed storage solution presents a uniquely creative and integrated use of space on an AZEK® Deck. Use this clever storage system to hide anything from deck umbrellas to lounge cushions.

Product Details

- Easy to build kit contains everything necessary for in-deck storage system – brackets, storage box, etc.
- Specially engineered frame supports 500 lbs across lid surface
- Designed to prevent water infiltration
- Removable plug allows for easy tub clean-up
- Pro Dealer friendly packaging

Sizes

- 6' long x 26" wide x 22" deep (17.5 cu. ft)

AZEK® Gate Hardware Kit

Building a working, lockable, great looking gate onsite is now easy. Answering the market demand for an easy to build gate that offers strength and high style, the AZEK® Gate Kit offers an affordable solution that can be built on-site yet resembles a custom application.

Product Details

- Works with 6' or 8' section of AZEK® Rail
- Self closing/self latching and lockable system
- Unique hinge system allows for leveling and alignment with existing railing
- Strong, safe and secure without cross bracing

Sizes

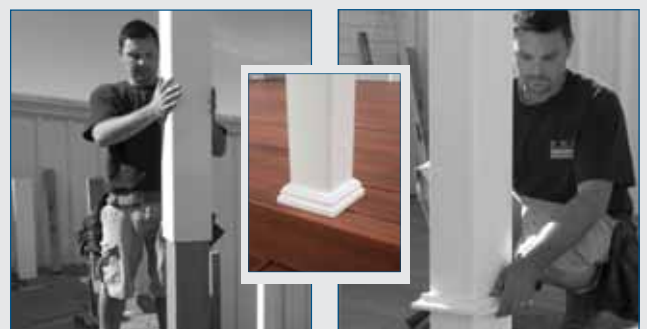

- 36" height & 42" height

So sturdy that it requires no cross members for strength, the AZEK® Gate Hardware Kit gives an upscale look that looks custom and uncluttered.

AZEK® 5x5 Post Sleeve

Re-engineered to offer a better fit and finish over a traditional 4" post, the new AZEK® Post Sleeve has been enlarged to match architectural aesthetic trends. The enhanced 5" x 5" post sleeve works with all AZEK® Rail brackets.

Sizes - 39", 45" (white only) & 54"

Check with your local Parksite representative for information on improvements to the rail installation process.

www.azek.com

Rail and Porch

Strength and good looks are just the beginning.

AZEK® Rail offers the beauty and feel of real wood coupled with the high durability and low maintenance you expect from AZEK® products. With three versatile styles and popular color selections, it is now easier than ever to find the perfect railing system to complement your deck or porch project.

- AZEK® Premier Rail is a classic Victorian style railing
- AZEK® Trademark Rail is a versatile Colonial style that works well with any housing style
- AZEK® Reserve Rail is a generously sized railing offering a luxurious look and feel

Better than wood or composite, AZEK® Porch provides a durable, long lasting solution for porch flooring that looks great and stays looking great. AZEK® Porch is made with the same proven technology as AZEK® Deck to provide a low-maintenance porch surface that resists stains, moisture, mold/mildew, scuffs, and scratches.

For greater design flexibility, and unlike wood or composite porch materials, AZEK® Porch can be used in covered or uncovered areas.

Available in Brownstone and Slate Gray, AZEK® Porch is a tongue and groove 1 x 4 plank that cuts and installs easily with traditional tools.

- Low maintenance
- Stain and scratch resistant
- Perfect for covered or uncovered applications
- Limited lifetime warranty

Inspiration for Outdoor Living™

Decorative Postcovers™

DecKorators™ Railing Components are the perfect alternative to the 2" x 2" wood baluster. They are aluminum balusters with a powder coated surface or a tempered glass baluster. Deckorators balusters are low maintenance and are backed by a lifetime limited warranty.

Decorative Postcovers™ are made from high density polyurethane and produced in 3 finishes (each tri-colored) with matching caps. These 42" postcovers slide right over a 6x6 post, require no paints or sealants and carry a limited warranty.

NOTE: Stock items may vary by Parksite location

Cortex

CONCEALED FASTENING SYSTEM for PVC TRIM

Fastening PVC trim the old way is labor intensive to say the least. Faster, Easier and Stronger is FastenMaster's mantra and Cortex® for Trim exemplifies the idea. Drive two Cortex® for Trim into each framing member 16" apart, tap the plug into the hole and you are done.
