

MCCA Recognizes Aston Marketing Group / Timeshare Relief for Diversity Achievement

Aston Marketing Group, Inc. is being distinguished by the MCCA (Minority Corporate Counsel Association) for its efforts in advancing diversity as the proud employer of Francesca M. Brooks, General Counsel. Aston Marketing Group is also the parent company to industry leading Timeshare Relief, a company that provides a guaranteed exit solution for timeshare owners.

MCCA advocates the hiring and promoting of minority attorneys in corporate law departments. They aim to advance minorities by illuminating the best diversity practices and honoring leaders with its prestigious Thomas L. Sager award. They are now proud to acknowledge Aston Marketing Group's General Counsel, Francesca M. Brooks.

Born of mixed Mexican-Spanish heritage in Pacoima, California, Francesca was raised in the same Latino community in which her great-grandfather was a patriarch. At the age of 28, Francesca attended Pepperdine University for her law degree while working 30-hour weeks to support her young son. Soon after, Francesca joined the Executive Team at Aston Marketing Group.

When asked about her recognition, Francesca stated, "I'm proud to be a Latina, a female and a General Counsel for an Inc 500 company." Dave MacMillan, President of Aston Marketing Group and Co-Founder of Timeshare Relief, is also very pleased with the company's distinction, saying, "It's great that we're being recognized for our employment practices, hiring the best person for the position. Francesca has been with us for some time now and we're honored to have her."

According to the American Bar Association, in the year 2000, women made up 28.7% of all lawyers in America and minority women made up only 4.8% of that. Just last year, women accounted for 45.66% of all associates and minority women accounted for 11.02% of all associates. Aston Marketing Group is proud to be a part of such huge advancements toward diversity in corporate law.

About Aston Marketing Group
