

E-Nihilator (ENP-1)

PORTABLE DATA SHREDDING TECHNOLOGY

Do not compromise the security of your sensitive data by outsourcing or transporting your data storage devices off-site. Waste Revolution's E-Nihilator (ENP-1) provides a cost-effective solution for secure on-site data destruction anytime on demand. The E-Nihilator (ENP-1) is a self-contained, compact and portable shredder capable of physically destroying hard drives, CD/DVD, tapes, cell phones and other media storage devices.

E-Nihilator (ENP-1)

INNOVATIVE PORTABLE SHREDDING TECHNOLOGY

Engineered with a range of customers and users in mind, from small businesses to Fortune 500 corporations and Government agencies, the E-Nihilator (ENP-1) is an ideal entry-level portable asset management tool. If data security is a priority for your organization, and mere data-wiping or degaussing won't suffice, the E-Nihilator (ENP-1) physically shreds and destroys hard drives, data disks, CDs/DVDs, and any other media storage device that will fit into the ENP-1's feed. The E-Nihilator (ENP-1) offers simple, low-maintenance operations, and the most effective, affordable data destruction solution.

STANDARD FEATURES

- Heavy duty sawtooth hooked cutters thoroughly shreds and destroys hard drives and other electronic devices into unusable and unrecoverable pieces.
- Special housing materials inhibit magnetization, thereby reducing jams and downtime.
- Dual forward and reverse cutter motions quickly and automatically clear jams.
- Heavy duty steel construction and powerful 3 HP motor handles high volume shredding.
- Designed for minimal noise, vibration and energy consumption.
- Compact profile/footprint requires minimum space, while sturdy casters allow easy mobility.
- Built-in counters provides easy tracking of shredded volume.

SAFETY AND SECURITY FEATURES

- Power control secured with key lock that prevents unauthorized use.
- Plexiglass safety cover over feed chute prevents shredded materials from escape.
- Emergency shut-off switch and universal safety labels.
- Storage bin secured with a key lock to prevent access or theft of shredded material.
- Front/back panels secured with key latches that allows easy access only to authorized maintenance personnel.
