Exchange and Exchange Online Migration Solution

Data migration to a new service is a challenge for all businesses. There is no time for downtime, IT departments may not have the knowledge or tools to perform a migration and the process is costly.

MigrationWiz is a complete cloud-based migration solution that helps companies move from existing to new messaging systems seamlessly and affordably — eliminating the need to manage on-premise software or hiring specialized consultants. Our patent pending software is hosted in our highly available and secure datacenter.

MigrationWiz is a solution designed to meet the needs of individuals, employee-administrators, IT administrators, consultants, system integrators and service providers interested in migrating mailboxes.
