- Team members have been verified as having an active hunting license in their state of residence and are in good standing with the State Wildlife Resources Commission.
- Team members have passed a personal interview process and proficiency test and have signed and agreed to our strong code of ethics.
- Team members are participating in giving back to our communities as food providers through FHFH, the Venison Feeding Ministry.

Why use only Certified Backyard Bow Pro's™

Our goal is to NOT remove existing hunters from your property, but if we can help you flush out one unethical hunter, or one criminal, then the program is working. Do you know who is in your backyard?

- One way to keep unwanted people off of your property and out of your communities is to allow law abiding, crime free individuals in.
- Team Backyard Bow Pro™ members have taken steps to reassure you that they are worthy of your trust and will be an effective solution to your need.

“What People are Saying....”

- *“Over time we met and got to know each of the hunters. They all showed only the greatest respect for us and our land. Most of the time, we did not even know they were there.”*
- *“We were pleased at how professional and how good they are.”*
- *“It’s a win-win....and I’m not so certain that the deer don’t win too by restoring balance back to the forest.”*
- *“We look forward to their return, not only for the skill they bring in helping to reduce our deer population, but also because we feel it will be the returning of good friends.”*
