## Green Your School Grant Preschool Program

\$30,000 in Green Goods and Cash from Episencial.

Co-sponsored by EcoMom.com, Revolution Foods, CleanWell, and Eco-Kids.

A partnership working together to create an actively healthy environment - one preschool at a time!

Episencial is proudly providing 12 preschools with the opportunity to win over \$2250 in cash and products to go green. One preschool per month will be granted the three components of the Episencial Green Your School Grant: 1. \$250 cash toward a green program; 2. \$500 of Cubby Kits with Episencial Sunny Sunscreen and Protective Face Balm 3. \$500 of eco-friendly products from each grant partner.

### Part 1: Cash - Episencial Grant of \$250

What is your idea? You could fill the classroom with plants to battle indoor air pollution. Peace Lilly plants are easy to care for and offset a great deal of indoor air pollution! Or you could build a community garden, or even start composting! Choose a program that works best for your school and excites the children and community.

### Part 2: Cubby Kits - \$500 of the Best Skincare for a Safer Environment

The Grant entitles every child at the school to protective Episencial Sunny Sunscreen and Protective Face Balm for safer play, creating healthier bodies, one cubby at a time.

### Part 3: Green Products - \$1500 of Art Supplies, Snacks, and Cleansers

#### a. Replace toxic art supplies with safe options, in partnership with Eco Kids

Many art supplies and learning materials are made with petroleum byproducts and toxic ingredients which may damage your children's internal organs through inhalation and contact with the skin.

#### b. Make snack-time count, in partnership with Revolution Foods

Many snacks are filled with over-processed grains, chemical preservatives, and too much sugar. Make actively healthy snack foods a reality for a pure body!

#### c. Switch to Non-toxic Hand Cleansing, in Partnership with CleanWell

Children shouldn't have to live with dry, cracked skin or stinging cuts when they want clean hands. Keep your children clean with a safe, effective sanitizer!

### Products Delivered to Your Preschool's Doorstep by EcoMom.com

Visit [www.facebook.com/Episencial](http://www.facebook.com/Episencial) and Enter Your School to Win!  
Applications for Episencial's Green Your School Grant program will be accepted from May 4th, 2010 to May 4th 2011.
