No setup or monthly fees and receive 75% of the revenue!

Text2Pay offers a new way to charge customers from your website! If you're an online business selling virtual goods or services you are in the right place. Text2Pay enables merchants to sell goods online and charge their customers cell phones for purchases. We place a button on your payment page called "Pay by Fone" so your customers can select the mobile payment method – **Its Mobile Payments Made Easy!**

Text2Pay is designed to work alongside existing credit card payment options increasing sales conversions and payment options.

+ Easy, Safe & Secure

Text2Pay has no pre-registration and no new software is required, most transactions are completed within 10 seconds and are easy, safe and secure!

Secure payments with Text2Pay!

+ Dynamic Pricing

No more fixed pricing, Text2Pay offers "Dynamic Pricing" enabling you to charge anything between 50c and $25.

+ Increased Revenue Share

Traditionally mobile carriers take 50% of the transaction value, leaving you with 50% of the revenue! Now with Text2Pay you receive 75% of the revenue!

+ Reduced Fraud & Chargebacks!

With two-factor PIN/ZIP code authentication for each transaction – Text2Pay is more secure than any credit card transaction. The PIN/ZIP code pair is only valid for 60 seconds reducing your fraud & chargebacks!

+ Suitable Merchants

Online Classifieds
Virtual Goods & Services
eBooks
Online Shops
Game Developers
Software, Music & Movie Downloads

+ Increased Conversion Rates

With credit card conversion rates often under 10%, Text2Pay offers an easy way to increase your conversion rates to over 50% with safe & secure mobile payments!

+ Can I Customize the Payment Experience?

Text2Pay enables merchants to customize the payment experience by using their own look & feel and logo.
