

We can help you reach new heights.

At BioPharm Systems, we pioneer innovations based on customer needs. Our CTMS accelerator, ASCEND, speeds up implementations and brings down costs.

ASCEND is a pre-configured and enhanced version of Siebel Clinical that is attractively priced for small to medium-sized life sciences organizations. In addition to saving you time and money, it includes robust capabilities found on many companies' wish lists.

CTMS implementation options:

- On-Premises
- Dedicated Hosting
- Shared Hosting
- Subscription-Based

Integrate your CTMS with these systems:

- Clinical Data Management (CDM)
- Electronic Data Capture (EDC)
- Interactive Voice Response (IVR)
- Financial
- Safety/Pharmacovigilance
- Electronic Document Management (EDM)
- Clinical Data Warehouse
- Systems at Partner Organizations

Contact us to learn more about how ASCEND can help your company rise to the top.
