

## **Security Partnerships awarded Check Point Reseller of the year award**

**9th May 2011...**Security Partnerships Ltd, the IT and data security specialist is proud to have been presented with the highly prestigious “European Check Point Reseller Of The Year” award at the Check Point Experience 2011 for delivering excellent growth and migrating a significant number of clients over to the Check Point software blade architecture.

Awarded at the annual Check Point Experience in Barcelona, Amnon Bar-Lev, Check Points Vice President of Global Field Operations, congratulated the SP team for demonstrating a near unique insight into Check Points 3D Security message and understanding of what customers require to deliver a total security solution utilising Check Points product suite.

David Rawle, SP CTO, was on hand to collect the award in Barcelona and added, “The key to our growth is ensuring we provide the best possible service to our existing customers as well as winning new ones. SP ensure that all customers, new and old, receive the same level of service and this has been one of the most important elements in providing that growth.”

John Gilbertson, Security Partnerships Sales Director, was delighted with the award commenting, “Check Point have and are continuing to develop some industry leading solutions which have enabled us to win several major new customers along with developing great solutions for our existing clients. It is a fantastic boost to the entire team at SP to gain this recognition with the foremost vendor in IT security. We have always had a strong bond with Check Point and this award can only strengthen it further”.

### **About Security Partnerships Ltd**

Security Partnerships (SP) ([www.sp-uk.com](http://www.sp-uk.com)) helps companies achieve business advantage from secure IT solutions.

As a data and IT security specialist, based in Reading, SP works with many of the UK and global mid-market enterprises and central government to solve their IT and Data security concerns.

### **About Check Point Software Technologies Ltd.**

Check Point Software Technologies Ltd. ([www.checkpoint.com](http://www.checkpoint.com)), the worldwide leader in securing the Internet, provides customers with uncompromised protection against all types of threats, reduces security complexity and lowers total cost of ownership. Check Point first pioneered the industry with FireWall-1 and its patented stateful inspection technology. Today, Check Point continues to develop new innovations based on the Software Blade Architecture, providing customers with flexible and simple solutions that can be fully customized to meet the exact security needs of any organization. Check Point is the only vendor to go beyond technology and define security as a business process. Check Point 3D Security uniquely combines policy, people and enforcement for greater protection of information assets and helps organizations implement a blueprint for security that aligns with business needs. Customers include tens of thousands of organizations of all sizes, including all Fortune and Global 100 companies. Check Point's award-winning ZoneAlarm solutions protect millions of consumers from hackers, spyware and identity theft.
