

ABOUT US

Clinovo is your leading edge Clinical Data Solutions Provider. Leveraging our technology best practices, we help bring medical innovations faster to the market.

Based in the Bay Area and San Diego, we provide local medical device, biotechnology and pharmaceutical companies with high quality clinical data solutions that accelerate their clinical trials and speed up regulatory review.

We provide full-service biometrics : Clinical Data Management, Electronic Data Capture, Biostatistics, CDISC mapping and Medical Writing, as well as Clinical Staffing Solutions.

A UNIQUE COMBINATION OF ASSETS

OUR COMMITMENT : ACCELERATE YOUR CLINICAL TRIAL

- Our client-focused business model and mid-size structure allow us to stay on top of our clients’ needs.
- We leverage best-of-breed technology to develop and customize turn key solutions that expedite time to market.
- Our leadership team has 20 years industry experience and has the know how to support sponsors in achieving positive clinical endpoints while reducing time of FDA submission.

We differentiate ourselves from traditional CROs by our unique combination of industry and technology expertise. We use the latest eClinical trial technologies, develop and assemble in-house clinical systems across all our services to help sponsors conduct efficient, faster, cost-effective clinical trials.
