

**OUR STATEMENT**

At TRIM Electric, we strive to give our residential and commercial customers unparalleled service and reliability by providing experienced, professional, licensed & insured electricians who are drug tested & safety trained. TRIM Electric has been serving the Greater Houston Area since 1978 and is still family owned & operated.

**OUR EXPERTISE**

While we began as a residential service company and word of TRIM Electric's quality and dependability spread, the scope of our operations widened into commercial & solar installations. **Why have clients been coming to TRIM Electric for over 30 years?** Because we provide fair pricing, quality service, and follow-up that only a family run company can offer. Customers know that they can count on us! We work hard to ensure that our customers are satisfied while continuing to build a reputation for safety, integrity & quality. While times and technology have changed, our focus on honest old-fashioned service hasn't. That's why repeat customers make up a substantial part of our business.
