The first time I worked with Model Actor Photogaphy, I was hooked. He shot my pageant headshots, and did an amazing job. He's an LA photographer, and with me being from Houston, I knew he would be the best. He knows the "look" and did a great job capturing it.

Renee is a wonderful photographer that can handle any type of project. He is prompt, professional, and always impressive. He was one of the best photographers I have worked with over the years. He is open to your ideas and will work with you to create the perfect product. Use Renee and you will not be disappointed.

I have worked with Renee on many occasions and each time he is always prompt, prepared and very creative with his ideas. He is very diligent but also laid back which makes it very easy for me as the model to feel comfortable. He also welcomes creativity and is not arrogant which always makes for some of the best photos. Each time I need to update my portfolio, I feel confident that Model Actor photography will give me some great shots.

I have worked as a graphic artist (off-site) for Model Actor Photography for several years. Consistent top notch photography that has been a pleasure to edit. They are always in control of the set to ensure the best possible quality comes from the imagery. The images are fresh and always provide a dynamic look. They care about their clients getting booked, not just to shoot "pretty pictures".

Renee does such beautiful work! I am a make-up artist and have worked with Renee on so many occasions and with so many different clients. Each time they look and feel radiant. What's more, he is a pleasure to work with! He makes the model feel comfortable and at ease... Always resulting in fabulous images!
