Envure™ Performance Products

selective. intelligent. chemistry.

SACHEM:: Envure™ Products

SACHEM's Envure™ performance products are used in the manufacture of integrated circuits, liquid crystal displays, printed circuit boards, and many other electronic applications.

- ▶ Envure LX™ TEAH
- ▶ Envure LX™ TBAH
- ▶ Envure™ BzTMAH
- ▶ SiAn Etch™
- ▶ SiAn Pro™
- ▶ TMAH UP
- ▶ Envure NA™ in PG
- ▶ Envure NA™ in MeOH

SACHEM :: Applications

Envure LX™ provides our highest purity products for the most sensitive cleaning, etching or stripping applications.

Envure NA™ delivers our high purity hydroxides in propylene glycol or methanol solvents for photoresist strippers, electronic surface cleaners, edge bead removers, and for microelectronic applications requiring little or no water.

Envure™ Specialties, SiAn Etch™ and SiAn Pro™ provide an alternative to TMAH bulk silicon etching.
