

NEW BOOK DEFEAT CANCER

15 Doctors of Integrative & Naturopathic Medicine Tell You How

“Cancer is one of the leading causes of death in the U.S., and most conventional treatments are tragically ineffective and counterproductive ... this book will provide you with a valuable perspective that you will likely not hear from your oncologists.”

—**JOSEPH MERCOLA, DO**
Founder, Mercola.com
World's Most Visited Natural Health Site

ONE-ON-ONE WITH 15 CANCER DOCTORS

If you traveled the world for appointments with fifteen cancer doctors, you would discover many of the cutting-edge treatments used to heal the body from cancer. You would also spend thousands of dollars on hotels, plane tickets, and medical appointment fees—not to mention the time that it would take to embark on such a journey. Even if you had the time and money to travel, would the physicians have enough time to answer all of your questions? Would you even know which questions to ask?

In this long-awaited book, health care journalist Connie Strasheim has done all the work for you. She conducted intensive interviews with fifteen highly regarded doctors who specialize in cancer treatment, asking them thoughtful, important questions, and then spent months compiling their information into organized, user-friendly chapters that contain the core principles upon which they base their approach to healing cancer. The practitioners interviewed are medical, osteopathic and naturopathic doctors, trained in a variety of integrative approaches to cancer treatment.

All aspects of treatment are covered, from anti-neoplastic (anti-cancer) remedies and immune system support, to dietary and lifestyle choices that result in the best outcomes for patients. The book also offers unique insights into healing, such as the pros and cons of different treatments and how to intelligently use chemotherapy. It discusses patient and practitioner challenges to healing, factors that affect healing, treatment outcomes and how to effectively combine multiple medical strategies to obtain the best results. Finally, it offers helpful insights to the friends and families of those coping with cancer.

Cancer treatment is complex and controversial, and this book puts the treatment information you need in the palm of your hand.

15 DOCTORS FROM 5 COUNTRIES SHARE THEIR TREATMENTS

"I have practiced medicine for 53 years, and a world without cancer is possible NOW. This book is a must-read and belongs in the hands of anyone who is affected by cancer."

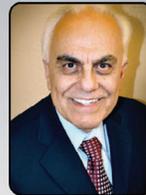

—**GARRY GORDON, MD, DO**

*Coordinator of the Kobayashi Cancer Study
GordonResearch.com*

We interviewed 15 medical doctors, osteopaths and naturopaths who treat cancer either exclusively or as a major part of their practice. These physicians were chosen on the basis of their expertise and experience in treating cancer. Each of the book's chapters is devoted to the treatment approach of a particular doctor, and covers the following topics:

Joe Brown, NMD
Natural Health Medical Centers
Tempe, AZ

Constantine A. Kotsanis, MD
Kotsanis Institute
Grapevine, TX

Chad Aschtgen, ND, FABNO
Institute of Complementary Medicine
Seattle, WA

Robert Eslinger, DO, HMD
Reno Integrative Medical Center
Reno, NV

Martin Dayton, MD, DO
Dayton Medical Center
Sunny Isles Beach, FL

Julian Kenyon, MD
Dove Clinic
London, England

Elio M. Rivera Celaya, MD
Hope Wellness Center
Ciudad Acuña, Coahuila, Mexico

Steven Hines
Hope Wellness Center
Ciudad Acuña, Coahuila, Mexico

Pine Tree Clinic
Prescott, AZ

Nicholas J. Gonzalez, MD, PC
New York, NY

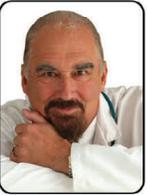

Colleen Huber, NMD
Naturopathic Medical Doctors
of Arizona, Tempe, AZ

Juergen Winkler, MD
Genesis Health Systems
Oceanside, CA

Keith Scott-Mumby MD, PhD
Reno, NV

Anti-neoplastic (anti-cancer) treatments targeted at eliminating cancer cells and tumors. These include everything from IPT (Insulin Potentiation Therapy) and gene-targeted therapies, to metronomic chemotherapy, mistletoe, high-dose Vitamin C, sono and photodynamic therapy, dendritic cell vaccines, and intravenous nutrients. The doctors also answer the question, "What is cancer and what causes it?"

How to support and heal the body during and after cancer treatments. Included is information on diet, detoxification, vitamin and herbal supplements, hormone therapies, homeopathic remedies, allergy treatments, exercise and other physical therapies, as well as additional supportive treatments.

Factors that affect healing, including finances, lifestyle habits, psycho-emotional stress, past treatments, and co-morbid conditions. Tips are provided for patients with limited financial resources.

How to prevent cancer in the first place, and/or keep it from returning once patients are in remission or successfully managing their cancers.

Why medical politics have limited people's access to effective treatments, and why knowing this is essential when searching for a cancer doctor.

Dangerous and/or ineffective approaches to cancer treatment.

Suggestions for how family and friends can help their loved ones with cancer.

The treatment outcomes that the doctors have with their patients.

Patient and practitioner challenges to healing and how to overcome these.

How to heal past trauma and psycho-emotional problems that contribute to disease.
