About Aero Tech Designs

We manufacture bike shorts and Cycling Jerseys in Pennsylvania. Aero Tech Designs is a cycle wear company. We design and market, high quality bicycle apparel that meet and exceed the needs of our customers. Our products will enhance performance with emphasis on technical design for bicycling comfort. We are committed to honesty and integrity in all our business relationships. Our goal is to produce the best possible products to serve our customers who want comfort. We sell comfort on the bike.

Made in U.S.A. is an important part of our apparel line as we have made a commitment to production of bike shorts in America. We hire local staff and we purchase our materials from the highest quality vendors available to us. Some of our materials are imported, but most are made in U.S.A. We are dedicated to making high quality bike shorts and cycling products. Look for the "Made in U.S.A." in the description for our own manufactured products. We have been making high quality cycle wear for twenty-five years. We have designed and manufactured bicycle wear for Descente, Bike Nashbar, Terry Precision, Head, Frank Shorter, Giant and many other cycling companies. We dressed Lance Armstrong when he was a rookie in Texas. Our company manufactured the Olympic uniforms for the American Cycling Team in 1982. We make our products to meet the needs of you, our customer.

Everyone has their own reasons why they enjoy riding their bikes.

We cycle for the passion of the sport. We ride for the companionship of friends. We move for healthy bodies and minds. We enjoy making that experience enjoyable for you. The everyday commuter, the urban cyclist, the group rider, the century rider, the racer all share two things in common: Two wheels and the need to be comfortable while they ride their bike. Aero Tech Designs offers a variety of shorts to accommodate each different type of rider. From triathlons to centuries we design shorts with thin, quick drying chamois to maximum comfort, thick, three layer gel chamois.

About Our Shorts

Our cycling shorts are created to enhance your cycling experience.

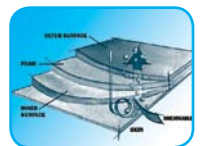

Aero Tech Designs offer shorts for every level cyclist. Each short is specifically designed to provide superior comfort. Our spandex offers compression which reduces muscle fatigue. It's easy to Ride Longer and Feel Stronger in a pair of Aero Tech Designs' shorts. Our shorts range from 2 – 8 panels of stretchy LYCRA® which is perfect to accommodate any rider at their skill level. We complement each short with a different chamois that is hand selected to bring the garment to the next level of performance. We are able to do all this and still accomplish our goals to be economically priced and mostly manufactured in the U.S.A.
