All attachments hold controllers, but never before have they *improved* your skill.

Retro-futuristic rifle design that adjusts to fit your needs. Operates as an **Articulated Dual Action System** or a **Solid Rifle body**.

Allows you to operate your game fluidly and **center automatically**.

Spawn and Run. No more Spawn and Done....

Lets your player move like a real warrior, move smoothly, look left, look right, creep, sneak and **Win**.

Look great, play like you mean it, and **feel the difference an Engineered accessory can make.**
