About PAC

PAC Worldwide Corporation (PAC) is an innovative manufacturer of protective flexible packaging. What started in 1975 as a business to serve the air courier industry has turned into a global packaging company that continues to provide cutting edge solutions for customers while maintaining the highest level of quality and customer service.

PAC is headquartered outside of Seattle and has manufacturing and distribution strategically located around the globe. Our plants have many capabilities including producing bubble mailers, flat poly mailers, paperboard mailers, folding cartons, retail bubble, and security/banking bags (see back for details).

With our strategic locations and willingness to think outside of the box, PAC is able to come up with unique packaging solutions for all industries that ship small parcels. While we continue to service the air courier industry we have also had great success in providing solutions to other industries such as office products, online retailers, online pharmacies, and photo finishers.

Products and Services

www.pac.com

PAC Products

- **Airjacket** – 100% recyclable poly bubble mailers are durable, and moisture-resistant, with exceptional puncture resistance, tear strength, and cushioning performance. Relied on by companies worldwide to promote their brand across the globe. 🌱
- **Mailjacket** – Protect important documents, photographs and CDs with PAC's rigid and durable paper-board mailers. 100% recyclable, made from 100% recycled paper, 95% of which is post-consumer.
- **Polyjacket** – 100% recyclable flat poly mailers are strong, moisture and puncture-resistant, made to protect your documents and soft goods during shipping. 🌱
- **Polyjacket-R** – 100% recyclable Polyjacket-Rs are made from durable, moisture resistant co-extruded polyethylene which contains at least 50% recycled content.
- **Kraft Airjacket** – PAC's golden kraft paper bubble mailers stand apart from our competitors with their stronger construction and higher cubing ratios. Simply put, that means fewer trucks, and less warehouse space.
- **Securejacket** – Customized solutions to protect your cash, checks and deposits while in transit. With the ability to provide tamper-evident closures, sequential numbering, and a variety of different constructions these bags are ideal for banking, armored cars, retail and the casino industry. Securejackets are 100% recyclable. 🌱
- **Lab Bag** – As an outer package to labs and pharmacies that are shipping various types of specimens, heavy gauged film and a customized proprietary leak-resistant closure make these bags ideal for protecting that shipment. Lab Bags are 100% recyclable. 🌱
- **Autojacket** – Using an automated system? On a roll or fan folded, the 100% recyclable, all polyethylene flat Autojacket is the way to protect your packages while increasing your fulfillment speed. Ideal for online pharmacies. 🌱

Automated Packaging

- **PACjacket** – The PACjacket automated packaging machine utilizes our patent-pending "cool" heat-seal technology, which encases your product in the same bubble film that is used by fulfillment companies worldwide. This ground-breaking technology will dramatically increase your productivity, while substantially lowering your material and labor costs. PACjacket film is 100% recyclable. 🌱

Additional Products

- **Bubblerolls** – 100% recyclable Bubblerolls are available printed, in a bag or in a box, for retail or industrial use. Ideal for fulfillment applications and void fill. 🌱
- **Packing List Envelopes** – Enclose packing lists and other shipping documents inside clear plastic, pressure-sensitive envelopes with adhesive backing.
- **Consolidation Bags** – Consolidate mailer shipments using clear or opaque plastic bags made from strong, co-extruded polyethylene.
- **Corrugated Boxes** – Choose from plain and custom printed corrugated boxes in a variety of flutes.
- **Folding Cartons** – Folding cartons are available in board weights of 12 pt. and above and can be printed with up to 6 colors. 100% recyclable, made from 100% recycled paper, 95% of which is post-consumer.
- **Pallet Covers** – Protect and conceal your pallets with PAC pallet covers.

Additional Services

In addition to being a global leader in the manufacturing of protective packaging, we also offer a variety of services to assist our customers in fulfillment, logistics, and distribution:

- Third party logistic services and customer direct pick/pack/ship logistic services
