

## Email Encryption

Do you or your employees commonly send emails and attachments that contain contracts, social security numbers, credit card numbers, medical data, bank records, driver's license numbers or other confidential personal information?

New state and Federal legislation requires that people's personal information be protected when it is being transferred electronically and failure to comply with these laws can lead to fines imposed on your company up to \$100,000 per violation.

### Why SendPrivately Email Encryption?

- Cut your postage costs by sending documents electronically
- Easy to use for employees and email recipients
- Intelligent scanning of outbound emails and attachments
- PDA Support - iPhone, iPad, DROID, Windows & BlackBerry

### Some Current Laws Requiring Email Encryption

- HIPAA - medical information
- Gramm-Leach-Bliley Act (GLBA) - financial information
- Massachusetts Law 201 CMR 17.00 - residents of MA
- California Security Breach Notification Act (SB 1386)
- Sarbanes Oxley
