

LifeSaver...

Remove all temptations associated with Texting, Emailing and making Calls while driving.

- Home screen locks while driving at the pre-set speed
- While in lock-mode, 911 emergency calls are always allowed
- Auto-Reply to incoming text messages, customizable message
- Auto reporting of vehicle location via GPS or locate via GPS real-time request
- Send text/email messages for speeding alerts
- GPS health monitoring, and automatic reporting in the event user disables GPS
- Multiple actions taken based on user/admin setup (vibrate/audio/GPS reporting/etc...)
- Based on user/admin preferences, LifeSaver can provide Zero-Tolerance alternative to the deadly Distracted Driving problem.
- Deploy and easily manage as many users as the company likes through the use of BlackBerry Enterprise Server (BES) using the appsFX plug-in, or for companies that do not have BES, they can deploy using appsFX proprietary Portal Management Push Technology (PMPT).

appsFX is a leading developer of innovative BlackBerry applications that enhance the productivity, efficiency and utility of personal and professional Smartphones.

For a free trial version or to set up a demonstration for Lifesaver or any appsFX applications, send an email to LifeSaver@appsfx.com.
