

The Clearlight 50W Beacon & 40W EcoSpot

Performance Overview: Light on the Ground.

The 50W Clearlight Beacon delivers .01 fc (full moonlight) at over 4 mounting heights per side making it the perfect replacement lamp in legacy MV or HPS fixtures used as streetlights, parking lot lights, barn lights or general area lighting.

IDA approved, the 40W EcoSpot delivers a directed circle of light with the greatest intensity right under the fixture. Perfect for illuminating signs, gates, driveways, doorways and any place where light trespass might be an issue.

1 mounting height = 25.25 ft. The Clearlight has a Type V (circular) light pattern.
