Skins for ContourHD and GPS

Skyway's innovative line of skins for the ContourHD and ContourGPS hands-free action cameras were designed and produced in the USA as a result of customer demand for personalization of these cameras. The initial product line contains three flat finishes for tactical use (flat black, desert camo and olive drab) and four gloss finishes for sports and general use (white, blue, red and yellow). These tough CamSkins are removable, repositionable and reapplicable, and leave no residue.

These skins will be available through distributors and channel partners. Available June 2011.

- ⇒ High-quality breathable vinyl appliques that will resemble factory paint, similar to those on race cars and hot rods
- ⇒ Materials and skins are made in the USA
- ⇒ Skin is thick enough to protect camera from most scratches
- ⇒ The CamSkin is removable, repositionable and re-applicable
- ⇒ Each piece is cut from thick high-grade breathable vinyl to fit with accuracy and precision
- ⇒ Will not tear (like paper) or leave any residue (like stickers) if you ever decide to remove it
- ⇒ Makes your Contour Camera look completely renewed/personalized
- ⇒ Tactical skins reduce visibility and reflection to blend with your equipment

Technical Data

Thickness (without protective paper and adhesive)	3.75 mil
Dimensional Stability (FINAT TM-14)	Adhered to steel, no shrinkage in cross direction; In length, <.016"
Temperature Resistance	Adhered to aluminum, -40°F to +176°F, no variation
Fire Behavior (DIN 75200)	Adhered to steel, self-extinguishing
Fire Rating	ASTM E 84-07 Class "A"
Adhesive Power (FINAT TM-1, after 24 h, average)	Adhered to stainless steel: 4.1 lb/in
Tensile Strength (DIN EN ISO 527)	Along Min. 19 MPa Across Min. 19 MPa
Elongation at Break (DIN EN ISO 527)	Along Min. 130% Across Min. 150%
Seawaterability (DIN 50 021)	Adhered to aluminum, after 100h/73°F, no variation
Minimum Application Temperature	46°F

CUSTOM SKINS

Please contact us if you have a requirement for custom logo, custom branded or custom color skins for Contour wearable cameras. Minimum Order Quantities will apply.

How To Apply

1. Wash your hands with soap and water to remove any residue that may linger on the surface of your camera.
2. Thoroughly clean any dust, fingerprints, etc. from the surface that you are applying or reapplying your CamSkin with a lint-free cloth
3. Peel your CamSkin from its surface ensuring that it does not have any creases or folds.
4. Hold your CamSkin adhesive side up in the palm of your hand. Remember not to allow the CamSkin to fold in.
5. Apply the adhesive to the surface and smooth it over to ensure a quality bond.

CAMSKIN
By Skyway International
