Iris Data Services Hires New Director of Computer Forensics
Leading eDiscovery Company Adds Anthony Pitre to Lead Forensics Department

NEW YORK, June 27, 2011 — Iris Data Services, a leading provider of discovery solutions, announced today they have hired Anthony Pitre as their new Director of Computer Forensics. Pitre will lead Iris' Forensics group, their nationwide team responsible for all forensic collections, investigation and analysis, and Iris' industry leading *Forensics Culling* process. Iris Data Services is a leading supplier of discovery solutions including eDiscovery, computer forensics, attorney document review, and online hosting.

"Iris has become one of the best discovery providers in the legal industry," said Pitre. "More and more, law firms and corporations must rely on computer forensics in order to effectively conduct complex litigation. I am excited about leading this growing service for Iris." In his role as Director of Computer Forensics, Pitre will manager Iris's team of Forensic Engineers.
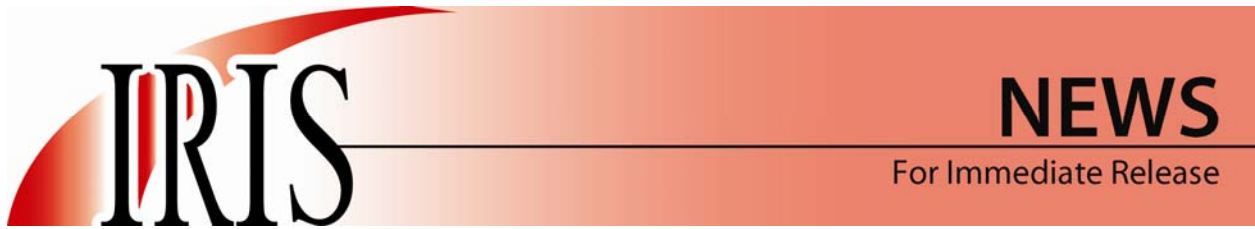

"Our clients increasingly need the defensibility provided by having certified third party forensic experts conduct collections, interviews, and investigations related to complex litigation and regulatory matters," said the president of Iris, Major Baisden. "Tony enhances our leadership in this suite of services with his expertise in digital forensics and computer crime investigation."

About Anthony Pitre

Anthony Pitre has over 10 years of industry experience in digital forensics and computer investigation. He has lead several teams of forensic consultants and is an EnCase Certified Examiner. Pitre got his start in forensic investigation as a New York City Police Detective working in their Computer Investigations Unit where, besides conducting computer crime investigation, he was a member of the New York State Governor's Cyber Crime Task Force. Prior to working in Computer Investigations, Pitre was a Detective in the New York City Police Department's Robbery and Detective Squad for 10 years and a Patrol Police Officer for six years. Pitre is a court qualified expert in Forensic Computer Examination and Criminal Investigations.

About Iris

Iris Data Services is a leading supplier of discovery solutions including eDiscovery, computer forensics, document review, and online hosting. Lead by recognized industry experts in electronic discovery, Iris streamlines the eDiscovery process for corporate legal departments and law firms. Iris' online hosting solutions make document review more efficient for legal teams and less costly for their clients. Iris' discovery experts, project management team, and use of technology have combined to make it one of the

fastest growing companies in the industry. Iris is headquartered in Kansas City and maintains offices throughout the United States and Asia. For more information about Iris, please visit www.irisds.com.
