

EVERY RING HAS IT'S STORY

The founders of Typerings.com couldn't find an easy and affordable way to create their perfect wedding rings online. That's when they decided to create it themselves. Read their story here.

OUR STORY

"In 2010, we were married for 10 years and I decided to get new wedding rings. We wanted a text on the outside, on white gold bands, in a certain typeface."

"I looked for the 'Nike iD for wedding rings' online, only to find it simply wasn't there! That's when I came up with the idea to create Typerings.com myself."

"Typerings.com combines traditional craftsmanship with an innovative website in response to the need of today's consumer for personalization."

Rik Heijmen (1972)

Lives together with his wife [Tanja Soeter](#) (Designer) and two kids in Amsterdam. He founded and creatively led two ad agencies.

After selling his company he funded this innovative concept for personalizing jewelry online.

this started it all

EVERY RING HAS IT'S STORY

These rings are more than just a ring. They are stories. Personal reminders to carry with you where ever you go.

Create a ring in honor of a loved one. Or as a gift to someone special (or yourself). Maybe you want to make a bold statement. Everyone has a story to tell.

Type a text, choose a font and have your ring to engraved, Or upload you own design. Anything goes. It's a blank canvas.

Instead of clichéd Courier, Futura or Edwardian Script, our fonts are made by Dutch type foundry [Underware](#).

The rings are of superb quality, made to order in Holland and shipped all over the world.

What's your story?

never mind

While it is easy to simply say “drop your problems”, you and I both know that it is not that simple.

The meditation master told [Maartje](#) this simple rule: ‘never mind’. She has a tattoo of these two words in her own handwriting as a permanent reminder. And now she wears it as a ring as well.

INSPIRATION

We've asked friends and customers to come up with some inspiring examples. And this is what they came up with. You'll find designs from Design-Milk.com (I LIKE TO ROCK) and Maartje van der Hoeven from Models@Work ('Never Mind') amongst them. And many to come.

alles geben

When people ask font foundry Underware to describe their motto, they often answer:

Alles geben ('Give it your all')
