AUDIT Documents

2011 Audit Schedule

NERC's Most Recent Audit Schedule lets you know when your next audit is.

2011 Actively Monitored Standards

Knowing what the actively monitored standards are and how compliance will be assured is a must know for continuing compliance.

Reliability Standard Audit Worksheets

Using the Reliability Standard Audit Work Sheets (RSAWs) that the regulator uses to conduct an audit enables entity readiness.

Compliance Tools

CATS (Condition Action Tracking System)

Stay within regulatory guidelines by identifying critical conditions, assigning actions, verifying status and generating accurate reports.

TAKTIX (NERC Project Management)

Bridge geography and streamline document development with action tracking, electronic document libraries, on-line commenting and more.

NERC eLIBRARY

Your Reliability Standards research system for NERC, FERC and Regional Entity regulatory information - maintained in logical electronic file cabinets with full text search.

CERTREC

Helping You Manage the Regulatory Process to Your Advantage

From Certrec's Office of NERC Compliance (ONC) comes NERC Monitoring, your one-stop, all-inclusive, "NERC in a box" system for easily understanding what's changing, keeping up with regulatory standards, preparing for audits and better managing compliance projects.

Time Well Spent

Significant changes to the NERC Reliability standards are underway along with how compliance is measured (results-based standards).

As a compliance manager, you know that the ability to demonstrate NERC compliance is as important as compliance itself. Certrec's NERC Monitoring provides:
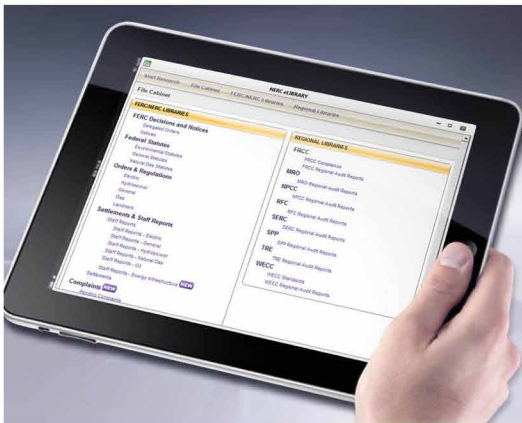

- Real time monitoring and notification of all NERC, FERC, and Regional Entity news, alerts, issues, and rulings

- NERC standards, pre-and-post Audit documentation, and worksheets – all in one place

- A Condition Action Tracking system that allows you to manage NERC compliance in real time across your entire organization

- NERC project management tools

- A complete, online library of all NERC standards, policies, and rulings

NERC MONITORING

"NERC in a Box"

Focus on the important with daily, real-time regulatory updates, analysis, NERC reference documents, and project management tools.
