Imagine Managing the NERC Regulatory Process to Your Advantage

Imagine experiencing complete confidence and satisfaction in your NERC compliance program — from compliance appraisal through audit preparation, to successful audit completion.

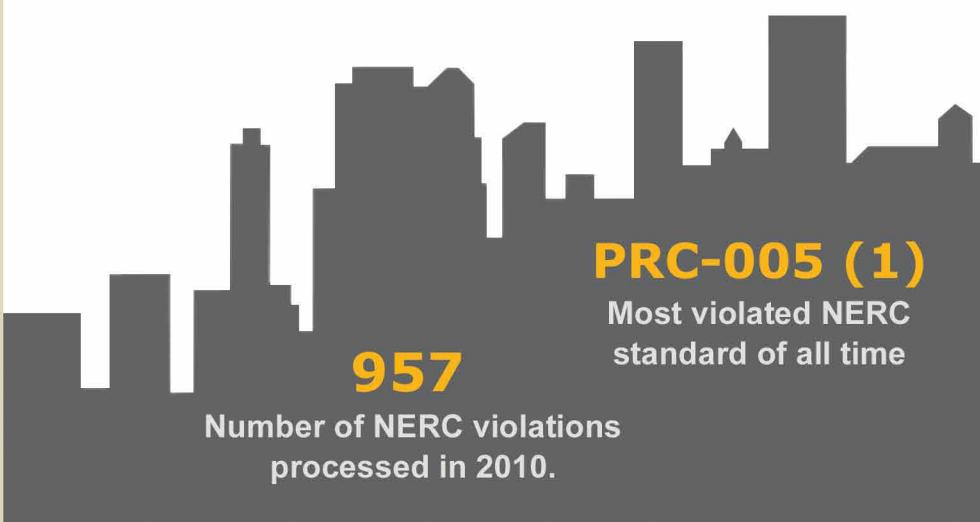

Now you can.

Certrec supports NERC Compliance managers through our Office of NERC Compliance services. As your regulatory partners, Certrec Office of NERC Compliance (ONC) allows you to focus on other core business functions while being confident that nothing escapes your attention.

Staffed by NERC compliance experts with more than 250 cumulative years of regulatory compliance and audit experience, Certrec's Office of NERC Compliance (ONC) allows you to better:

- ***Manage the Impact of the NERC Regulatory Process***
- ***Manage Communication with Multiple Regulators***
- ***Maintain NERC Compliance***

"Our facility is in compliance with all NERC standards and was recognized as having the best audit records this team has seen. Thanks Certrec." - Omar Sharief, Compliance Mgr., Leading North American Utility

- Manage the Impact of the NERC Regulatory Process
- Manage Communication with Multiple Regulators
- Maintain NERC Compliance

Certrec serves electric industry professionals who are responsible for regulatory compliance with FERC, NERC, NRC and other bodies.

With more than 20+ years of direct utility experience, Certrec's highly skilled and industry-seasoned team offers extensive regulatory compliance, audit, engineering service know-how. Many hold degrees in Nuclear, Electrical and Mechanical Engineering, Engineering Physics, Computer Science, and Engineering Technology.

Our Office of NERC Compliance clients include the North American Electric Reliability Corporation (NERC), Sabine River Authority, NISCO, Shell Wind Energy, Entergy, and others.
