Manage Rep Schedules and Track Visit & Task Information in Real Time

Successful and competitive companies have the resources to schedule every task in every store and to cover those visits and tasks on time with no excuses. The only way to achieve 100% execution in a field-working environment is to schedule work and follow up on it.

VelociTRACKER's flexible scheduling modes let you create, maintain and communicate your master schedule to managers and field workers. Excel spreadsheets and calendar-based tools for web and mobile devices describe in exact detail what has to be done, by whom, the time range available to execute the work, and precisely what work is to be done. Any missteps result in email alerts, ensuring that everyone stays on task to complete project on time – every time!

THE COMPETITIVE EDGE:

With VelociTRACKER™, you can receive automatic alerts when reps fall short in their schedule commitments for visits and tasks. This allows you to make instant adjustments before the retailer can bring it to your attention.

- ✔ **Personal Rep Schedules**
- ✔ **Schedule Conflict Notifications**
- ✔ **Black-Out or "No Visit"Dates for Retailers**
- ✔ **Frequency Tracking of Visits for Any Location**
- ✔ **Weighted Averages for Assigning Visits Based on Rep Experience Level**
