## Music Search

 [Like](#) [Edit](#) [Move](#) [Delete](#)

SearchTeam can be used for putting together a selection of current music findings that a group wants to discuss (for example, I have classmates that like to organize and share music videos, and I have musician friends who like to research the pieces we are currently playing in orchestra).

## College/Scholarship Research

 [Like](#) [Edit](#) [Move](#) [Delete](#)

SearchTeam can be used when researching college scholarships and internships (especially asking older students to join the SearchSpace, since they have been through the college app process).
