

... design your own **EVENTS**

ABOUT **EVENTS** *clique*

Events Clique is a web-based event planning solution that enables users to easily plan, design, and see (in 3D) their events from beginning-to-end. Whether you have a Wedding, Corporate Event, or Private Event, we've brought together the top local venues and vendors, along with our full suite of easy-to-use event planning tools, to help you create the event you've been envisioning. Sometimes choice is not enough, so we've added expert event management and planning tools, a 3D event designing application to allow you to see your event before it takes place, and the ability to contact your favorite venues and vendors with the simple clique of a button.

Venue & Vendor Selection

Events Clique hand-selects the top local venues and vendors in each region that can become part of your event "clique". Each venue and vendor has been cordially invited to feature their works based on style, experience, and an impeccable reputation for you to create your one-of-a-kind event.

3D Event Designer

Clique, drag, and drop your choice of venue, furniture, AV equipment, linens, decor, etc., into the workspace. Rearrange and try different layouts and styles until you are satisfied with the result. View your event in 3D and get the list of all the products and vendors. Once you're happy with the look of your event, save it and send an email to those that are in your "clique". Stop dreaming about the perfect event – it's only a clique away!

Event Management & Planning Tools

Manage and plan your events all in one place. Whether you need a To Do List or Budgeter, Events Clique has provided you with all the necessary tools, which can be saved within each event you create. What's more, each To Do List and Budgeter is the most comprehensive available and has been custom designed for your specific event. Don't see your event type? Not a problem! We've added customization features so you can plan and manage any event of your choice.

Messaging Venues & Vendors

Contact your favorite venue and vendors directly through Events Clique to schedule a meeting. Send a message and see their reply – Events Clique keeps everything organized for you so you don't have to.

Events Clique is the perfect event planning solution for individuals, event planners, venues, and vendors – whether your looking to plan an event or help in the process, Events Clique has a solution for everyone.
