

POISON SPYDER CUSTOMS

Expand and fortify your 2-door or 4-door JK's existing stock roll bar with Poison Spyder's innovative JK Trail Cage Kit! Easy, bolt-together installation requires no welding or special tools.

- NC Laser Cut 1-1/2" OD, .120" wall DOM Structural Tubing
- CNC laser cut, precision brake-formed 3/16" plate steel brackets & A-Pillars
- Super strong, solid steel interlocking tube couplers provide bolt-together functionality
- Full-Height fabricated A-Pillars tie cage strength in to body tub, dash, door posts and floor
- A-Pillar design tightly hugs dash contours for no loss of legroom or obstruction of entry
- 3/16" plate steel fabricated center stringers for unmatched overhead strength
- Optional Entry Grab Handles provide ease of entry and passenger stability for rough terrain
- Optional 4-Door C-Pillar Kit adds strength to rear section of stock 4-Door cage
- Bolt-together kit comes in a manageable shipping size—saves on shipping compared to bulkier cage products
