

Reliable anesthesia system with gurney

- 0.1 to 0.4 oxygen flowmeter with rotary float.
- Large, easy-to-read scale.
- Recessed flush valve for preventing accidental activation
- Quick-connect fresh gas outlet lets you simply and securely switch between breathing circuits.
- Selectatec™-compatible manifold makes installing the vaporizer quick and easy.
- 1500 ml CO₂ absorber lets you easily replenish sodalime. The absorber also has a condensation trap that prevents water build-up in sodalime. It also efficiently seals gas.
- Patient circuit with two-liter and three-liter bags.
- Pop-off valve features new momentary closed feature.
