ExpatRide

Car leasing and financing

Together with Enterprise, the owner of the largest fleet of vehicles in the U.S., we have developed a finance program tailored for the needs of expatriates in the U.S.

The finance program is an "open ended agreement" which makes it possible for you to break your lease or drive more miles without escalated penalties. The program takes the best parts of leasing and loan financing to give you the most flexible solution.

Finance program details

- Leasing / finance program available throughout the U.S
- 7 to 9 days from application approval to delivery
- Finance period from 12 to 60 months
- Minimum finance amount is \$12,000
- New and used cars
- Car maintenance program available
- Insurance assistance.
- No U.S. driver's license needed
- Start builing your important U.S. credit score.
 Enterprise reports to the U.S. credit bureaus.

Option 1

Personal Car Shopper Service

A free service

We can search for your vehicle according to your wishies, needs and budget (new or used) car you want. Enterprise will locate and negotiate pricing for you with a dealer close to your location. Enterprise can, in most cases, get better pricing, as it is one of the largest buyers of vehicles in the U.S.

Option 2

Find the car on your own

If you prefer to locateand negotiate a car on your own, you can do that at any dealership nationwide. Just contact us with the details on the car and dealership contact information, and we will assist you with financing.

- Registration fee and taxes
- Lease inception fee \$995 (per vehicle)
- Pro rated portion of current month's monthly payment
- First full months lease/finance payment

FAQs For Car Leasing And Financing With Enterprise.

What is Enterprise Fleet Management?

Fleet Management is a division of Enterprise Rent-A-Car and has been providing leasing solutions to their customers since 1957. Through the combined efforts of their national rental and leasing fleet, they manage more than 1 million vehicles.

What services does Enterprise provide?

Enterprise is able to acquire vehicles, regardless of make or model. They will handle all of your license and registration needs. In addition, Enterprise can enroll you in a budgetable maintenance program to make sure that your vehicle is properly maintained. When you're ready to sell, Enterprise will use every channel to ensure that you get top value in the resale market.

An Open-end lease is closer to traditional financing.

The lease rate is based on the amount of miles and the length of time the vehicle will be operated, however there or no mileage or wear and tear restrictions. The vehicle is funded and depreciated over the term, but unlike financing where the amount owed in the end is zero, the open-end lease keeps a residual value. This value is based on the estimated resale value of the vehicle. Your monthly payments are typically lower than with financing.

This is a good lease type for drivers who need to have a flexible lease structure and want to avoid mileage penalties.

Can I terminate my contract early?

Situations will vary:

 With an Open-end Lease there are no early termination penalties, but the lessee is responsible for the reduced book value of the vehicle. The lessee will receive any gain associated with the resale of the vehicle. If the vehicle can not be sold for the reduced book value, the lessee would be responsible for any shortfall.

How is the monthly payment calculated?

It is calculated based on several factors, including the term of the lease, the delivered price, and the vehicle's projected value at the end of your lease. A capitalized price reduction, similar to a down payment, can help reduce your monthly payment. Finance charges and sales tax will also be included in your monthly payment.

What is a Credit Score? Your credit score is a measure of your credit worthiness used by credit institutes, insurance companies, phone companies, landlords etc. to determine whether you are eligible for credit. Your credit score can range anywhere from 350 to 850.

Will I build a U.S. credit history as an Enterprise customer? Yes, Enterprise will report your credit history to the U.S. credit bureaus.
