

Save money & the planet

- > Buy discount *clean* electricity
- > Spare the air tons of CO₂ emissions
- > Hassle free - We handle everything

No Upfront Cost

Greenzu is excited to offer you a way to go solar without paying the enormous upfront cost. In our **Power Purchase Agreement**, we pay to install solar on your roof, and you buy the electricity from us for the next 20 years.

What We Do:

- Install roof-safe solar
- Conduct a free on-site energy audit
- Handle the paperwork & permitting
- Take care of all the monitoring & maintenance

What You Do:

- Host the solar system on your roof
- Buy the electricity, at low rate for 20 years
- Enhance your public image helping the planet

Discount Electricity – Savings Grow Annually

Your price for solar electricity starts at 10-20% off your current utility rate, and goes up 2.5-3% a year while utility rates go up 4-6% a year on average.

Below are the savings for a 30kW system in PG&E area:

Year	PG&E Rate	Solar Rate	You Save	Total
2011	\$ 0.182	\$0.146	\$1,693	5 Year Totals:
2012	\$0.189	\$0.149	\$1,853	
2013	\$0.197	\$0.153	\$2,021	
2014	\$0.205	\$0.157	\$2,196	
2015	\$0.213	\$0.161	\$2,380	
2016	\$0.222	\$0.165	\$2,572	\$12,714
2021	\$0.270	\$0.187	\$3,669	\$16,054
2026	\$0.328	\$0.211	\$5,030	\$22,313
2031	\$0.399	\$0.239	\$6,707	\$30,044
Total Savings:				\$81,127

**Total Saved
\$81,127**

Simple Process

- ➊ Send us your utility bill to get a free site assessment.
- ➋ Sign up for a solar PPA. Get a free energy audit.
- ➌ We install your solar system. You start racking up the savings!

THE BOTTOM LINE

Our mission is driving solar adoption by helping it pencil out.

We invest our money in your building, so long payback times and a big cash outlay do not stop you from going solar. Instead of making payments, you simply buy the electricity you already need, at a discount! The result:

- Greenzu's team takes all the hassle out the equation by doing everything for you.
- You make a huge environmental impact!
- And saving money each month is icing on the cake!
