## **JAMS Job Scheduler Being Showcased at 2011 Symitar Educational Conference September 20-22, 2011 at the Manchester Grand Hyatt in San Diego**

**25 July 2011** – MVP Systems Software, Inc., the leader in enterprise batch job scheduling and workload automation software, announced that it will be demonstrating JAMS Job Scheduler at the 2011 Symitar Educational Conference in San Diego. Symitar hosts annual education conferences and technology expos based on agendas that are both educational and entertaining. The ultimate goal for these annual conferences is to provide credit union professionals with a forum to learn more about how Symitar's products and services can help them optimize their distinct service, operational, performance, and growth goals.

"We are delighted that Symitar has asked us to demonstrate JAMS at their annual users conference," states Harry Reisenleiter of MVP. "Over the past decade, we have signed up a number of prestigious credit unions that leverage JAMS to run their Symitar Episys processes. We are excited to discuss how JAMS makes credit unions more efficient and productive."

JAMS is the only enterprise job scheduling system built on a .NET framework. JAMS is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (Episys, SAP, SQL, Informatica, Oracle, etc.)

### **About Symitar**

Symitar, a Jack Henry Company, is the leading provider of core processing solutions for credit unions of all sizes, now supporting more than 650 credit unions – including six corporate credit unions and approximately 30 percent of the credit unions with assets exceeding \$1 billion – with enterprise-wide automation.

Symitar's credit union solutions encompass two functionally distinct core systems; approximately 50 integrated complementary products and services; in-house and outsourced operating alternatives; contemporary technology; and the infrastructure necessary to support each client as a single point of contact, support, and accountability.

### **About MVP Systems Software, Inc.**

For more than 20 years, MVP Systems Software, Inc. has provided leading-edge batch job scheduling and workload automation solutions to its more than 750+ customers. Customers include household names like JPMorgan Chase, Boeing, FINRA, Manulife Financial, Kaiser Permanente, The Hartford, and the US Postal Service. MVP's solutions are delivered in traditional software as well as SaaS models. To learn more about JAMS, please visit [www.JAMSScheduler.com](http://www.JAMSScheduler.com) or call 800-261-JAMS.
