Web-based Video Deposition Solutions For Real-time Court Reporting

Benefit from the most cutting-edge technology available to legal professionals. LiveDeposition.com allows court reporters to stream real-time video depositions across the globe, with just a few clicks of a mouse. Requiring NO downloads, LiveDeposition.com's web-based video deposition solution is the ultimate tool for court reporters to broadcast - in real-time - the audio, video, and text from live depositions to anyone, from anywhere, at any-time.
Court Reporters turn to LiveDeposition.com because it…

- Offers instant easy-to-use scheduling, right from the LiveDeposition.com interface

- Connects clients in seconds, without asking them to download and install troublesome software

- Requires NO bulky external hardware components to view real-time video feeds

- Provides agencies with a secure platform to conduct real-time depositions

- Feeds in real-time transcripts directly from a stenograph machine

- Gives court reporting services access to 24/7 live technical support

Product Information

No Software Downloads - There are no downloads required to join a live deposition. The only requirement is a high-speed internet connection, a web browser and the Adobe Flash® Player, which is already installed on 99% of computers worldwide.

Web-based Solution - 100% web-based solution, allowing depositions to be instantly conducted in real-time with anyone, from anywhere, at any time.

Simple Deposition Scheduling - Built-in invitation tools which allow deposition hosts to easily send an email containing deposition details, such as URL, date and time.

Multiple Platform & Browser Compatible - Works on PC, Mac and Linux machines, as well as multiple browsers, such as Internet Explorer, FireFox, Chrome and Safari.

Live Video Feeds - No bulky external hardware components are required to stream video in real-time. Video can be broadcast through a common web camera.

Audio Broadcasting - Attendees can listen to what an interviewee is saying instantly through built-in VoIP or Toll-Free Conferencing.

Streaming Transcription Text - As information is entered into a stenograph machine, the data is formatted and displayed in Real-time within the deposition room.

Secure Instant Messaging - Use Private Group Chat to get instant feedback from team members or anyone connected to your group.

Built-in Collaboration Tools - LiveDeposition.com allows your clients to have more interactive and synergistic depositions.

Our built-in features include:

- Reports
- Keyword Search
- Zoom in/out on transcribed data
- Searchable indexed list of words
- Manual scroll through transcript
- Capability to jump to page/line

Conduct Live Depositions with Anyone, from Anywhere, at Any-time.
Make your next deposition a LiveDeposition…your clients will thank you.
