COGNOS BUSINESS INSIGHT ADVANCED - \$795

The Cognos Business Insight Advanced two-day course is designed to allow business users to create simple reports and analyze their data. In this course, you will learn how to create reports with relational and dimensional data sources using lists, cross tabs and charts. You will also learn how to add those reports to sophisticated interactive dashboards to facilitate decision-making.

COGNOS OLAP MODELING WITH TRANSFORMER - \$995

PerformanceG2's Cognos OLAP Modeling with Transformer two-day course provides participants with the knowledge of OLAP modeling concepts using Transformer. You will learn how to design, build, and maintain PowerCubes for use in Cognos Business Intelligence, so that the end-users can easily analyze.

COGNOS QUERY STUDIO/ANALYSIS STUDIO- \$795

The Cognos Query Studio and Analysis Studio two-day course is designed for business authors who want to learn how to create, modify and organize ad hoc reports and OLAP dimensional reports. The course covers how to use different report capabilities and the appropriate use of each, how to graphically display the data, and how to create reports with the same look and feel through the use of templates.

COGNOS 10 - WHAT'S NEW - \$595

The Cognos 10 - What's New one-day course will introduce you to the new features of Cognos 10. The course will highlight new abilities in Cognos 10, will explain the difference between Cognos 8 and Cognos 10, and will review the new self-servicing features of Cognos 10, plus explain the upgrade process.

"I really learned a lot through the virtual hands-on approach that PerformanceG2 takes to course instruction in its online Cognos training courses. Going over a lesson, then applying that lesson, helped me to really see how Cognos works. It was apparent how knowledgeable the instructor was on the subject just by how comfortably the course was taught."

-Jessica Moore, Cost Accountant for CalsonicKansei North America, Inc.

COGNOS BUSINESS INSIGHT- \$545

The one-day Cognos Business Insight course is designed to show users the techniques to create highly interactive self-service dashboards using Business Insight. In this course, you will learn how to create new dashboards, add reports and widgets, convert charts, create watch rules, and more.
