

## CTL All-in-One 650/650T

### **The New Standard in Desktop Computing**

Built around Intel's new Thin Mini-iTX standard, CTL's new All-in-One 650 desktop combines the latest in platform standardization with unparalleled flexibility in an All-in-One form factor. Building on this new platform standardization allows CTL to provide the flexibility and customization that we have become synonymous with.

### **Common Building Blocks**

With single screw access and the use of non-proprietary parts, CTL makes it easy for you to upgrade and customize your system to meet your needs. This ease of access gives you the ability to make repairs and get back up and running with minimal down time.

### **Unclutter**

With a slim sleek design, the CTL All-in-One 650 is an attractive alternative the standard desktop set up. The small footprint and elimination of peripheral cabling makes the CTL All-in-One 650 the smart choice for call centers, libraries, school computer labs, home desktops and anywhere else that space is at a premium.

### **Sustainable Design**

Made with 35% recycled material, the CTL All-in-One 650 G Series is EPEAT certified and Energy Star 5.0 rated. The CTL All-in-One 650 will save you money on your energy costs and reduce your carbon footprint at the same time.

### **Best of Class Features**

With support for Intel's latest processing technology and cutting edge features like an optical touch screen, CTL's All-in-One 650 provides the most technically forward leaning All-in-One solution on the market today.

### **Great For:**

Consumers, Government, Education, Digital Signage, Kiosks, and Point of Sale.

## All-in-One 650 Specs

CPU	Intel Sandy Bridge LGA1155 65W	Supports Celeron, Pentium, Core i3, i5 and i7
Chipset	INTEL Cougar Point H61	
VGA Core	Intel Ibex Peak H61 Graphics Core	
Panel Size	21.5" 16:9 1080p Full HD Wide Panel	1920x1080 Resolution
Audio Codec	ALC HD Decoder	
Memory	DDRIII 1066/1333, 2 Slots, up to 8GB	
Hard Drive	3.5" SATA HDD x1	
Optical Drive	1 Slim DVD Super-Multi, double Layer, Tray Type	
Card Reader	4 in 1 Card Reader (SD/MMC/XD/MX)	
LAN Speed	10/100/1000 Ethernet	
External Power Adapter	19V 135W	
Webcam	HD720p with Digital Microphone	
Speakers	3Wx2	High Quality Speakers
Stand Type	Photo Frame	
I/O Ports	USB 2.0 x 4, RJ45, DC inlet, mic, headphones	USB 3.0 x2 (optional), HDMI-out (optional), VGA, Brightness Control, Volume Control, Card Reader
Front I/O	Power Button, HDD LED Indicator	
Wireless	Mini Card, 802.11b/g/n (optional)	
Touch Panel	Optical Touch Panel (optional) - 650T
