Campus Collaboration Bundle

Lightspeed Systems

The new **Campus Collaboration Bundle** gives districts a safe, monitored, integrated way to access resources, collaborate, communicate, share information, and more—across groups and classes, schools, districts, towns, and even the whole My Big Campus community.

With the Campus Collaboration Bundle you can:

ACCESS!
Ensure CIPA-compliant, filtered web access while still letting users see, share, and learn with educational YouTube videos, web sites, wikis, blogs and more.

COMMUNICATE!
Stay in touch via discussion boards, individual chat, group chat, video chat, email, and announcements.

COLLABORATE!
Work on group projects or get feedback, homework help, and new ideas with groups for classes, clubs, and more.

CONNECT!
Go beyond your district walls to join up with other educators who share your interests and passions, developing professional learning networks and topical groups.

MANAGE!
Assign, announce, grade and plan—all with an easy online interface.

LEARN!
Extend learning anytime, anywhere with an engaging, dynamic, easy-to-use environment that gets kids excited.

SHARE!
Keep parents and community informed about district information, calendars, events, and important announcements.

DO IT ALL, SAFELY!
In addition to comprehensive CIPA-compliant web filtering, profanity interception, image skin-tone analysis, virus scanning, email allow lists, and peer flagging, you get comprehensive reports about user activity and flexible policies to manage and control use.

What it includes:
- Hosted District Web Site
- My Big Campus
- Campus Mail
- Web Filter

# Campus Collaboration Bundle

Hosted District Web Site
Share district news, announcements, calendars, and more

- Flexible, custom web site integrated with collaborative tools and content filter.
- Announcements, calendars, photo galleries, maps, links, and more.
- Easy interface to update and manage.

My Big Campus
**Connect, collaborate, and learn with safe access to resources and people**

- Educational Resource Library to access, share, and incorporate videos, web sites, documents, and more.
- Collaboration site for participatory learning and group communication.
- Blogs, messaging, discussions, chat, collaborative docs, calendars, assignments, profiles, groups, file storage, photo albums and more.

Campus Mail
**Communicate with safe, monitored email accounts and file storage in the cloud**

- Secure, unalterable email archiving.
- Spam filtering, allow lists, virus scanning, profanity interception, skin-tone analysis.
- Easy management and reporting.

Web Filter
Block inappropriate content without blocking learning

- Comprehensive web filtering based on education-specific URL database.
- Customizable allow and block lists and flexible policy profile capabilities.
- Features to balance educator and IT needs.

The **Campus Collaboration Bundle** is the perfect solution for districts large and small. Our engineers will discuss your network and your needs to help you choose the deployment option that's right for you.
