

FieldTurf

A Tarkett Sports Company

THE ULTIMATE
SURFACE EXPERIENCE

COMMERCIAL DIVISION

Airports Airfields & Taxiways

Patented Air FieldTurf is the leader in aviation-grade artificial turf solutions approved by the U.S. Federal Aviation Administration. Our world-class clients include Charles de Gaulle Airport, Marine Corps Air Station Miramar, Boston Logan, San Francisco and Hong Kong International Airports.

Benefits:

- Improves airfield access for rescue and firefighting
- Stabilizes runway and taxiway shoulders
- Reduces foreign object debris (FOD)
- Reduces the need for security clearances for field maintenance staff
- Provides non-lethal wildlife control
- Inhibits erosion from aircraft maneuvering
- Enhances visual contrast of runways
- Reduces bird strike through loss of wildlife habitat
- Dramatically improves water conservation

Contributes to:

- Improved visibility
- Reduced opportunity for foreign object debris
- Mitigated risk from wildlife
- Improved drainage

Provides:

- Turf incorporates more than 40 patents for products, installation methods, infill systems, adhesives, etc.
- Unmatched expertise with more than 20 million square feet of turf installed.
- Certified installation crews are fully insured, licensed and bonded, have extensive experience and provide quick response throughout the world.

Infill Option:

Air FieldTurf uses silica sand as infill. Infill provides ballast, keeps the blades upright and provides a soft surface under foot.

silica sand

100% Recyclable:

FieldTurf offers a 100% end of life recycling guarantee. FieldTurf developed a patented removal and recycling method to better serve more than tens of thousands of clients in North America. From conception to completion, FieldTurf continues to lead the industry in environmental responsibility.
