**Facelift Surgery Alert: New Product Helps Diminish Swelling,
Flush Out Harmful Fluids, and Accelerate Healing**

-Nouvelle Inc. Debuts Face Wrap Designed for Multiple Cosmetic Procedures-

VIRGINIA BEACH, Va.—Nouvelle Inc. announces the latest addition to its newly expanded compression wear catalog: the advanced face wrap. This exclusive design provides the best support available for patients recovering from any combination of surgeries involving the neck and face, including cervicoplasty, platysmaplasty, submental liposuction, and otoplasty.

“Our newest design has been crafted using the latest technological advances in compression wear,” said Nouvelle Inc. President Dawn Cover. “It’s exquisitely soft, durable, and effective—a top performer in increasing blood circulation around surgical areas to help accelerate healing, diminish swelling, and flush out harmful fluids.”

Top Five Surgeries for which the Face Wrap is Highly Effective:

1. Ear surgery
2. Facelift
3. Chinlift
4. Neck lift
5. Submental liposuction

In addition to the advanced face wrap, Nouvelle offers the full range of products designed exclusively for surgeries involving the head, neck and chin. Each design firmly yet delicately protects sensitive surgical sites from sudden movements (i.e. sneezing or coughing). Visit www.nouvelleinc.com for more information about post-operative dressings for facelifts, necklifts, chinlifts, otoplasty, and tumescent liposuction involving the submental (below the jaw) chin, jowls, and cheeks.
