

Atomic Training's Custom LMS Platform provides you with the ability to create your own training series. Your custom training series is browse-able, searchable, and can also be assigned to various members of groups. Custom training content can be beyond video as a variety of file types are supported. Create a custom training series on internal training issues, organization policies, mandates, or for compliance reasons for state and federal mandates.

Once a custom training series is created, it behaves just like all other Atomic Training series', in that it can be recommended, assigned, added to favorites, etc. You are able to use the Atomic Training reporting tools in order to document activity, and track click through's for embedded links.

Example Custom Training Series: Safety Training

Section A: Safety Guidelines

- Proper Equipment Prep (video)
- Safety Procedures (document)
- Government Recommendations (external link)

Section B: Procedures in case of Accident

- Emergency Contact form (document)
- First Aid Application (video)

Supported document types: .doc .docm .docx .dotm .dotx .gif .jpeg .jpg .onepkg .onetmp .onetoc .onetoc2 .pdf .potm .potx .ppam .pps .ppsm .ppsx .ppt .pptm .pptx .rtf .sldm .sldx .thmx .tif .tiff .txt .xlam .xls .xlsb .xslm .xlsx .xltm .xltx .zip

A custom training series created on our site can include a variety of training resources including video files, audio files, other files (.pdf, .doc, .ppt, etc.), or external links to other sites. These training resources all are organized into the custom training series.
