

SCHOOLVUE

Instruct | Monitor | Collaborate

Benefits

Monitor Student Activity & Comprehension Level

- A Teacher can supervise the entire class and easily gain real-time insight into student activity and topic understanding.
- Supervise Students Online
- Provide feedback on current lessons.
- Improve classroom synergy.

Save Time

- Easy to install, easy to learn, easy to use.
- Be confident that students are not wasting time on games, e-mail, or internet.
- Design custom tests and quizzes quickly and with ease.
- Tech Console helps technology managers offer support quickly and easily to students and teachers.

Save Money

- SchoolVue is an all-in-one solution.
- Save on paper and toner costs with printer management.

Classroom Management Made Easy.

CrossTec SchoolVue classroom management software gives instructors control of classroom technology at all times. Instructors can monitor and manage every student's computer activity from a single PC. They can view exactly what every student is working on, maintain student attention levels, and increase student time on-task. SchoolVue enables educators to instruct, monitor, and interact with students in one easy to use software package.

CrossTec SchoolVue delivers real solutions to real problems:

- Classroom Management software has been proven to improve learning by giving students more time on lessons and providing educators with more efficient use of teaching time.
- SchoolVue delivers instant, on demand technical support to the teacher when needed.
- Keep students on task and eliminate inappropriate technology use.
- SchoolVue is the most reliable and efficient classroom management tool in a 1:1 environment.

Features

Powerful Classroom Management

Power on/off all computers, remotely log on/off all computers in a single action, create custom classroom layouts.

Student Instruction

Show the teacher's screen to all members of the class, a selected desktop, or a selected application. Show a recording of a previous remote control session to the class or broadcast a multimedia file. Leave a full recording of the presentation on each desktop for later review.

View Student Screens

Monitor the entire class or selected students. View using scalable thumbnails of each PC, mouse over for a larger zoom view, or click for full 1:1 remote control.

Printer Management

Control Classroom printer usage or individual printer usage.

Tech Console

All computers in the school can be managed and maintained centrally through the tech console. Technicians will also be able to get a snapshot of all of the hardware and software specifications of the PCs.

Student Journal

Provide a complete record of a lesson. Journaling includes a full record of lesson and objectives, teacher and student notes, screen shots, survey results, URL/browsing history, and individual quiz results.

Student Register

Generate and store student attendance records and information.

Metering and Control

Applications and internet usage can be controlled by using approved and restricted lists to control availability.

Device Control

Completely block or limit use of USB thumb drives, iPods, DVD, and CD drives. Disable speakers.

Get Support

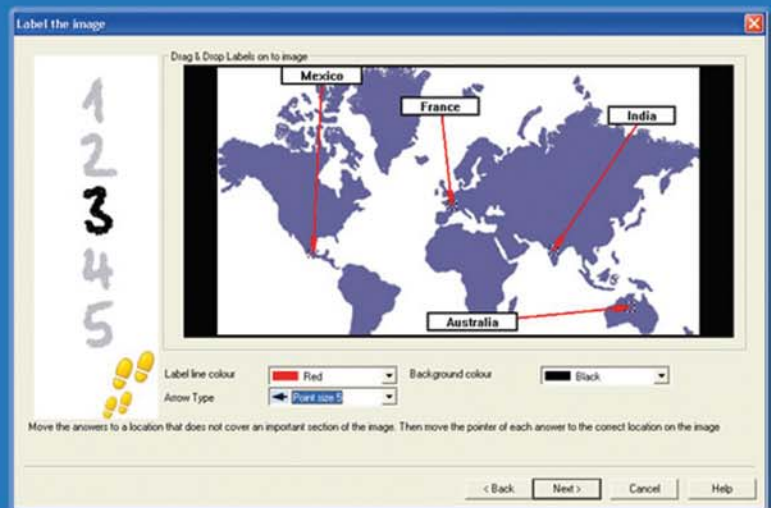

A single click of the toolbar button on the Tutor console will connect the teacher to an available technician.
