

Are you managing millions of dollars in Excel spreadsheets?

Millions of dollars in service charges and tip distributions in the hospitality industry are managed in time-consuming and error-ridden Excel spreadsheets. Evention is the only **easy to use software** for managing your gratuity distributions that saves your property money, increases productivity, and decreases errors.

Evention changes everything – automating your gratuity payroll

The Industry Standard

- Automating gratuity distributions in over 100 marquee properties in every major brand

Automation for any outlet

- Utilized for banquets, in-room dining, restaurants, limos, bellmen, spas, mini-bars, butlers, and more

Flexibility for any environment

- Flexible solution works in both union and non-union environments

The Evention Solution

- Replaces outdated and inefficient methods with powerful gratuity automation
- Fits easily into your existing processes and applications
- Allows managers to focus on core duties - reducing gratuity management to just minutes each week
- Provides properties with the ability to easily recover adjustments
- Eliminates labor disputes by guaranteeing an accurate process with real-time reporting

What our customers are saying

"The Hyatt® Regency Chicago has benefitted tremendously from Evention by making it possible to eliminate messy spreadsheets, manual record-keeping, and duplicate data entry. The user-friendly application allowed us to reduce the need for an extra person just to handle this process. In addition, employees have confidence they are being paid in a very accurate manner. Payroll adjustments have been virtually eliminated in comparison to former methods and employees seldom disrupt operations with challenges."

Dan McMenamy—Director of Accounting, Hyatt Regency Chicago, IL
