

REDEFINING THE PET BED EXPERIENCE

WWW.PETPLAY.COM

HOW IT ALL STARTED

MOMO

We love our little pug, Momo. When we brought her home, we wanted her to have the perfect bed. But when we shopped around we just weren't satisfied with what we found: the low-priced beds were poorly made and had no style, and the stylish beds seemed overpriced.

This search inspired us to develop a comfortable, planet-friendly, pet bed that is durable, easy to wash and of course, looks great.

We've tried and tested tons of designs, fabrics, fills and shapes. Now, we're proud to present to you the ultimate basic beds in our "Original" Collection and top-notch designer beds in our "Artist" Collection. Along the way we also created a few accessories that have a little something extra to make your life easier and of course, make your pet more comfortable.

We are P.L.A.Y: "Pet Lifestyle and You"

We're re-defining the pet bed experience and you're going to love it.

P.S. Momo loves it, too.

LIVE IN STYLE

P.L.A.Y.

The "Artist Collection" P.L.A.Y beds are designed by San Francisco's own David Collins. Every design is individually sketched and comped, then each top and side graphic is individually produced, a painstaking process compared to the traditional "repeating pattern" beds. This makes each bed its own artistic masterpiece - perfectly crafted for style and comfort.
