

E2

SEO PLATFORM

E2 SEO Platform

The most cost effective way of collecting SEO data and turning that data into insight...

E2 is a SaaS, SEO data platform that collects key SEO data and displays this on demand in a dashboard for a website and its competitors.

Instant Insight

The E2 SEO Platform provides marketers with on-demand, actionable SEO intelligence based on competitor data.

Simplified Planning

With the data at your fingertips planning your SEO campaign becomes a breeze, easily set your KPI's and track them through to success.

Ranking Factors

No more relying on cookie cutter SEO theory, see exactly why your competitors rank for a keyword. Cut through the SEO myths and find what really correlates to high rankings.

Algorithm Monitoring

You no longer have to wonder what's happened E2's algorithm tracking gives you a looking glass into how you and your competitors have been affected.

Save Time

Literally save days per month with E2's auto-pilot. Data is constantly collected, updated and analysed across all of your competitors.

On-Demand Reports

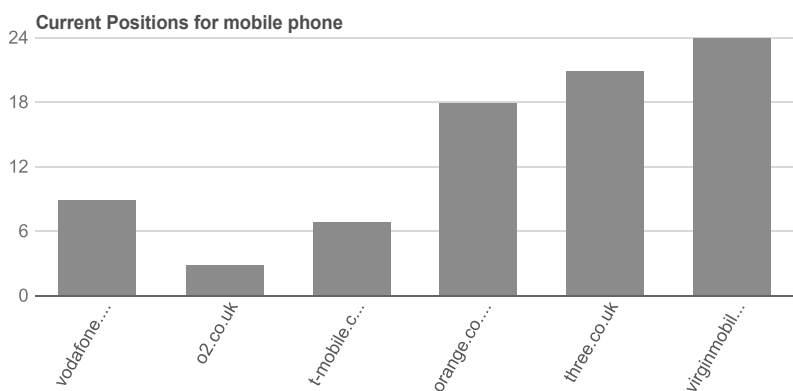

No more time consuming spreadsheets and powerpoints, just login and select the graphs you need for instant reports.

Track Competitors

E2 collects the same data for your competitors as it does for your site. In-depth analysis right down to keyword/page level to see exactly what they are doing.

Data Driven

No more guessing or blindly following out-dated techniques, now you can base your search engine optimisation campaign on real data.
