

## **About CASPER**

Dr. Cathrine Himberg is the founder of the **Center for Advancement of Standards-based Physical Education Reform** (CASPER), a grassroots, non-profit organization comprised of over 1400 REAL (Responsible Educators Accountable for Learning) teachers, parents, school administrators, and others concerned about quality physical education. CASPER advocates for quality physical education taught by REAL teachers. On its website, [www.supportREALteachers.org](http://www.supportREALteachers.org), CASPER provides free tools and resources for teachers, and information for parents and administrators about quality physical education. The project at Children's Storefront will serve as a model for CASPER's "Adopt a School" program.
