CamCam

Peace of mind from anywhere!

CamCam lets you easily keep an eye on people, places, and things you care about via live video streaming from your computer's webcam. View them on your iPhone, iPod touch, or iPad, remotely, from anywhere in the world!

· High-resolution, real-time video and audio streaming*

· Compatibility with built-in or external webcam and mic

· Pinch to zoom and pan

· Landscape and portrait modes

· Easy setup by utilizing equipment you already have

*Video and audio is streamed one-way from a remote computer to your Apple mobile device.

 Download from the iTunes App Store

Easy Setup

1. Install Splashtop CamCam app on your iPhone, iPod touch, or iPad, and Splashtop Streamer software on your remote PC with a webcam
2. Create a Security Code and enter it on both devices
3. Connect and view through your remote PC's webcam from anywhere in the world

Uses

- Check on your child or other family members when you're not at home or in the same room
- Find out what your pets are up to
- Keep an eye on your home while traveling
- Turn your PC webcam into a live nanny cam
- Never miss a big event that your computer webcam can capture
